GERMAN SOIL NOW ENTIRELY CLEARED OF FRENCH TROOPS

BERLIN, Aug. 13---(Via direct wireless from Nauen, Germany, to the Goldschmidt Wireless Company's station at Tuckerton, N. J.)---German soil is now entirely cleared of French troops.

The German troops took 120 French officers and 1,110 French soldiers prisoners in the fighting at Muelhausen, Alsace. They also captured four French cannon.

Another 1,000 French officers and men were taken prisoners by the Germans in the fight near Longwy.

RUSSIANS TAKE A TOWN BY ASSAULT

St. Petersburg Via London, Aug. 13.—A Russian force has taken the town of Sokal, Austrian Galicia, by assault, inflicting heavy casualties on the Austrian garrison, according to a semi-official announcement.

The Austrian garrison consisted of two infantry battalions, a regiment of lancers and a regiment of Hussars. After dislodging them the Russian cavalry pursued the Austrians across the river Bug and blew up two bridges and a viaduct.

Several houses in Sokal, which is 45 miles northeast of Lemberg, were set on fire and burned to the ground by the Russian troops because civilians had fired from them on the attacking forces.

The Russians captured some military building material, pontoons and telegraph instruments.

FRENCH CLAIMING ALSACE TRIUMPH

London, Aug. 13.—A dispatch from the French foreign minister issued by the French embassy today reiterates that the French troops behind Muelhausen, Alsace "have not retired, but victoriously resisted an entire German army corps."

The minister adds: "The Belgian army and the forts around Liege are intact and are prepared to resist all attacks. There has been no important change in Lorraine and there is no truth in the report that the Sixteenth regiment of French infantry was taken prisoner by the Germans at Briey in the department of Meurthe-et-Moselle."

At the end of his communication the French minister says: "France is gratified by the attitude of America."

BELGIANS MAKE IT STRONGER.

Tell of Heavy Losses Inflicted on Germans at Haelen.

Brussels, Via London, Aug. 13.—An official communique issued today confirms

yesterday's successes of the Belgian troops over the Germans at Haelen. It says the German casualties were very heavy, three-fifths of their troops engaged in the encounter being killed or wounded, while the Belgian casualties are reported as relatively small.

WILL ASK INTERVENTION.

Belgium Accuses Germans of Convention Violations.

Brussels, Via Paris, 1:25 p. m., Aug. 13.—It is stated here today that the intervention of the neutral powers is to be asked for by the Belgian foreign minister through their diplomatic representatives in the Belgian capital in reference to alleged repeated violations by the German troops in Belgium of the Geneva and Hague conventions.

M. Davignon, the Belgian foreign minister, has drawn up a long list of cases, declared to be fully attested of the killing of the wounded, the abuse of the white flag, the killing of civilians and the seizure of private and public funds.

WILSON ASKS PRICE PROBE

Wilson Directs Investigation of Recent Advance in Foodstuffs.

WRITES LETTER TO ATTORNEY GENERAL

President Hopes to Prosecute Those Responsible for Rises.

Washington, Aug. 13.—President Wilson today directed Attorney General McReynolds to investigate recent increases in prices of foodstuffs and to take up the question whether any persons responsible can be prosecuted.

The president sent the following letter to the attorney general:

"The rapid and unwarranted increase in the prices of foodstuffs in this country upon the pretext of the conditions existing in Europe is so serious and vital a matter that I take the liberty of calling your attention to it.

"I would be very much obliged if you would advise me whether there is under existing law any action which the department of justice could take, either by way of investigation or legal process, and what federal legislation, if any, would in your judgment be justifiable and warrantable in the circumstances.

"I feel that this is a matter which we cannot let pass by without trying to serve the country. Certainly the country ought to be defended, if possible, against men who would take advantage of such circumstances to increase the price of food and the difficulties of living.

(Signed) "Faithfully yours, 'WOODROW WILSON.'"

Taken up as first task. The president took up the serious question of increasing prices the first thing today and was impressed by the pressure of the situation. He at once decided that legal action should be taken if possible and that if there were no law covering the question new legislation should be passed.

Officials said the president considered that in many cases the increases were wholly unjustified. When he returned from Mrs. Wilson's burial at Rome, Ga., resolutions already had been introduced in the house calling on the department of commerce and justice to report what action they were taking.

Special agents of the department of justice throughout the country and investigators of the department of commerce are available to collect evidence for any action the attorney general may think warranted. The department of labor also has a corps which has become very expert in gathering evidence of the increased cost of living.

ENTERS HOSPITAL TO ENACT TRAGEDY

Kansas City, Mo., Aug. 13.—Mrs. Tillie Rolfe, 29, lay in the room adjoining the operating table at the Swedish hospital here today while nurses hurried about preparing for the operation for appendicitis that was to be performed on her in a few minutes. John Rolfe, 40, her husband, a wealthy farmer of Randolph, Kan., drove up to the hospital in a motor car.

"I want to see my wife," he told the head nurse. An attendant led him back to his wife's room.

John Rolfe said he was entered when the door closed.

Five minutes later five shots were heard. Physicians and nurses ran to the room, found the door closed.

AMORY MURDER STILL MYSTERY

Chicago Police Baffled by Case of Strangled Chicago Man.

Chicago, Aug. 13.—The mysterious murder of E. P. Amory patent attorney and secretary of the Southwestern Railway association, who was found choked and beaten to death in his office yesterday was still unsolved when the police took up the investigation today. Amory was killed yesterday morning and the body left locked in the office of the association. His woman stenographer vainly tried to get in and at length went home, leaving a note pushed under the door. The body was discovered by Allen M. Thompson, Amory's clerk, who was having a day off, he said, but looked in at the office late in the afternoon. The police held Thompson to investigate his story.

Amory was killed after a desperate struggle. His clothing was partly torn off. He had three cuts on his head; bruises on his throat and the whole office was spattered with blood. Thompson had several slight scratches on his neck, which he said he got while playing with a dog. One lens of his eyeglasses was broken. Thompson prints found on chairs in Amory's office were found to be compared with Thompson's today. Thompson declared that he had been given a day off to go to a dentist. The association of which Amory was secretary was formed to protect western railways against infringement of patents and the police thought the murder might have been committed by some person with a fancied injury in connection with patent litigation. Amory's desk was open and its contents scattered.

DR. FAUVE FEARS SAFETY OF SISTER

Countess de Machado Left Town Houses for Portugal.

Dr. and Mrs. A. E. Fauve, of West Wayne street, are greatly concerned about their sister the Countess de Machado, from whom they have not heard for some time. In her last letter the Countess expressed her intention of closing her town houses in Brussels, Belgium, and Paris, to join her husband at Lisbon. Since that time however, the war situation has involved Portugal and they have received no news from her.

Press dispatches from Genoa, Italy, say that the Principe di Undine, an Italian steamship, was due to sail from that port Wednesday and Fort Wayne people who have relatives and friends abroad, are confident that some of the local people who succeeded in leaving England and Germany for Italy will be aboard the vessel, bound for New York. It is known that Mr. and Mrs. George Bailhe reached Genoa and in a letter to Mrs. Bailhe's mother, Mrs. A. J. Nickell, it was announced that they had intended to sail from Italy August 1, but this is believed to be the first opportunity offered Americans to leave for New York. It is also believed that the Davison party, off this city, landed safely in Italy after fleeing by river and rail from Switzerland. The dispatch reads as follows:

"Genoa, Tuesday.—The Principe di Undine, an Italian steamship, will steam from this port for New York tomorrow. She is crowded with Americans.

"The British government has guaranteed her safe passage of the straits of Gibraltar."

BULLETIN

Washington, Aug. 13.—I. P. Morgan & Co. have inquired of the state department what the United States government's attitude would be toward French war vessels.

MEXICO AGAIN IN LIMELIGHT

Clash Between Carranza and Villa is Becoming More Acute.

AMMUNITION FOR LATTER IS HALTED

Villa's New Plans Win the Support of Defeated Federals.

Washington, Aug. 13.—Reports of the increasing friction between Carranza and Villa, constitutionalist leaders in Mexico, that reached a semi-climax when the "first chief" demanded that ammunition consigned to Villa be held up at Tampico, brought a long dormant phase of the Mexican situation to the front today. Carranza's sudden order to halt the ammunition was the first indication he had given of interference with the reorganization of Villa's army in Chihuahua.

While Carranza's action was not explained in official advices to the Washington government yet Villa's reasons for his displeasure with Carranza's attitude have been outlined by persons in Washington, who have been in touch with him. Villa wants Carranza to retire as "first chief." He insists that a civil instead of a military government be established to conduct elections throughout the southern republic, that land reforms be executed in conformation with the Mexican constitution; that the federal army be dissolved, but that deserving officers and men be admitted to the new army, and that amnesty be given to all political offenders except those involved in the anti-Madero plot. Villa also objects to military chiefs holding office as provisional governors and contends a military chief should not be provisional president. He is military governor of Chihuahua, and as such, it is said, is ready to retire.

Villa's present plans, according to his friends, have the sympathy of the federal army and particularly those officers now serving under the Carranza government. While the federal army is now evacuating Mexico City to permit peaceful occupation by the constitutionalists, yet the Carranza war minister has intimated to Carranza that if guarantees of safety are not given a counter revolution will be started and efforts made to join with Villa.

BRIEFLY TOLD BY BULLETINS

Winnipeg, Aug. 13.—Four infantry regiments of Winnipeg, 2,000 strong, were called to mobilize at Quebec by an order received from Ottawa today. They leave Monday night. The local battery will accompany the regiments.

Paris, Aug. 13.—The official declaration of war by France on Austria-Hungary was made public here today.

London, Aug. 13.—2:15 p. m.—Neither the British foreign office nor the Turkish embassy has received any dispatch concerning the reported purchase by Turkey of the German cruisers Goeben and Breslau.

Stockholm, Sweden, Aug. 13.—Two German warships were observed off Landed, an island in the Baltic yesterday and today. Götaland reports say that German war vessels are seen frequently cruising in that vicinity.

Advices from Finland indicate that the Russian fleet is still in control of the Finnish gulf. A party of British troops, suspected of espionage, were arrested yesterday.

FIRST UNCENSORED DISPATCH THROUGH

The first dispatch direct from Berlin uncensored by the authorities of the nations at war with Germany was received today by the Associated Press through the medium of the Goldschmidt Wireless company's station at Tuckerton, N. J.

The message contained the important information that during the fighting at Muelhausen considerably over 1,000 French officers and soldiers were taken prisoners by the Germans who also captured four cannon, while in another fight with the French on the border of Lorraine, further to the north, the Germans also took 1,000 prisoners. The dispatch adds that German soil had been cleared of French troops.

Developments in the war zone which appear chiefly confined to Belgian territory are made vague owing to the strict censorship over news relating to military movements.

Positions occupied by the main French, Belgian and British forces are not permitted to be disclosed even approximately, so that their plan of campaign cannot be assumed.

As to the German forces, indications from various sources point to the concentration of the main body with its right wing in Belgium and its left wing in the Duchy of Luxembourg. The German staff is said to have gathered 26 army corps along the eastern frontier facing Belgium and France. Many of these troops probably are stationed in the great fortresses in Alsace-Lorraine and along the Rhine. One dispatch asserts the defense of Germany's Russian frontier has been left to armies made up of reserves. Although all these are trained soldiers it would seem natural to leave as a nucleus for their organization a considerable force from the active army. The dispositions and strength of the French invaders in Alsace, where they are said to hold a long line within the German border, are kept rigidly secret.

On the seas, the reported safe arrival in the Dardanelles of the German cruisers Goeben and Breslau, has led to rumors of their probable dismantling until the end of the war.

In the North Atlantic, although Rear Admiral Craddock has declared it "clear of German cruisers as far south as Trinidad," the French liner Rochambeau, which was to leave yesterday, with French reservists was held in New York by orders from France.

In the North Sea, which the British government says may be strewn with mines, the main squadrons of British battleships are still out but their position is not publicly known. Neither is the location of the main German fleet.

Reports from Dover at the eastern entrance of the English channel, say heavy cannonading lasting an hour was heard this morning coming from the direction of the North Sea.

The Austro-Hungarian fleet, owing to the declaration of war by Great Britain, together with that of Germany, is said to be in the Adriatic where it was recently occupied in blockading the Montenegrin coast.

The British squadron in the Mediterranean is strong and has the support there of almost the entire French fleet. Belgian reports assert that a strong force of German cavalry, supported by infantry and artillery, after severe fighting around Haelen, was thrown back toward Liege by a division of Belgian cavalry with infantry and artillery. The German killed and wounded are said to have numbered three-fifths of the five thousand men engaged, while those of the Belgians are reported relatively light.

The French foreign minister denies a German report of the capture of a French infantry regiment at Briey, Meurthe-et-Moselle.

Swiss reports assert the Franco-Germany battle before Muelhausen to have been so severe that the neighboring hospital accommodations proved absolutely inadequate.

Many Germans in Berlin have placed their homes at the disposal of stranded Americans.

STEAMER CHASED BY UNKNOWN SHIP

Tokio, Aug. 13.—Passengers arriving today on the British steamer Nile from Honolulu, nine hours ahead of the schedule, told of being chased by unknown ships. Soon after leaving Honolulu on August 8 the passengers were suddenly ordered below decks. This evening the ship was plunged in darkness and sped forward under forced draught. The ship finally outdistanced the two-pursuers, apparently war craft.

The American embassy has published a denial of reports that Ambassador George W. Guthrie had inquired what was the Japanese program in connection with the European war or presented any communication from Washington on the subject.

A mass of false dispatches are pouring into Tokyo from many points in the Orient, designed seemingly to create the impression that the United States is intervening in the war situation.

WAR REGULARIZED BY BRITISH DECLARATION

London, Aug. 13.—The war of the nations of Europe today became further regularized with the formal declaration of war on Austria-Hungary by Great Britain.

The strength of the British fleet in the Mediterranean is unknown as no movements of warships have been made public since the first outbreak of hostilities. It is known, however, that France has the bulk of her fleet in the Mediterranean so that no apprehension exists here as to the safety of trade routes through that sea now that it seems certain that the German cruisers Goeben and Breslau are out of action.

The official press bureau here describing today the disposition of British armaments in the Atlantic and elsewhere, impressively urges traders of all nations doing business with Great Britain to send their cargoes confidently and boldly to sea in British or neutral ships in all directions except the North sea.

There is no doubt as to the probability of German submarines and submarines.

In the field of land operations little change has occurred since yesterday. It must be remembered in considering all the published reports of military operations that these dispatches emanate almost exclusively from the side of the allied French and Belgian armies.

Nothing whatever comes from the German and Austrian side relating to military movements or dispositions, and only occasionally a brief item describing the result of past engagements is made public from those quarters.

The strict censorship exercised over the whole field makes it difficult to estimate the value of the news received. The struggle for the possession of the Belgian forts surrounding Liege has recommenced and reports of artillery and cavalry engagements are taken as indicating the possible beginning of a great battle on Belgian soil.

The bulk of the German forces is believed to be concentrated on the frontier between Liege and the Duchy of Lorraine.

There is no doubt as to the probability of German submarines and submarines.

STORY AS TOLD BY BULLETINS

Paris, Aug. 13.—It is reported here that Brazil has demanded an explanation from Germany on the report from the French consul at Stuttgart that Bernardo de Campos has been assaulted and robbed by German soldiers. The Brazilian, who is blind, was formerly president of the state of Sao Paulo.

Paris, Aug. 13.—It is declared here that the alleged purchase by Turkey of the German cruisers Goeben and Breslau as announced at Constantinople probably will be the subject of a demand for explanations on the part of France and her allies.

Brussels, Via Paris, Aug. 13.—Peasants report that the Germans are waging a war of extermination. They allege that the troops are firing on priests and are killing and wounding people indiscriminately. Whole villages, according to their story, are being wiped out by the invaders.

Paris, Aug. 13.—A Rome dispatch declares that the departure of the Austro-Hungarian ambassador to Italy, Kajetan Mores de Kapos-Mere, stated to be for reasons of health, was really due to the impossible situation resulting from the failure of his efforts to obtain Italian support for Austria and Germany.

New York, Aug. 13.—The Belgian consulate today made public the following cablegram from the minister of war at Brussels: "The port of Antwerp is open and the estuaries of the river Scheldt are open to commercial navigation. During the day there will be Dutch pilots."

Paris, Via London, Aug. 13.—Ordinary traffic on the greater part of the French railways, with the exception of the eastern lines, will be resumed soon, it is announced. It is claimed in a semi-official statement that the French artillery has proven far superior to that of the Germans. The latter's heavy shells show little effectiveness, it is said.

Vancouver, B. C., Aug. 13.—The Canadian cruiser Rainbow, reached Victoria at 6 a. m. today, conveying the British man-of-war, Shearwater. The Algerine is expected in later today.

Dover, Via London, Aug. 13.—Heavy cannonading was heard here early this morning, the reports coming from the northeast. The firing lasted an hour.

Beaufort, N. C., Aug. 13.—A German warship has been cruising off the North Carolina coast about forty miles to sea, for the last three days, according to the commander of the United States fish commission steamer, Fish Hawk, which has been operating off Beaufort bar.

BELGIAN AND GERMAN HOSTS IN DESPERATE ALL-DAY ENGAGEMENT

BRUSSELS, VIA LONDON, AUG. 13.—The fighting yesterday between the Belgian and German armies in the vicinity of Diest lasted the entire day and constituted the first considerable battle of the war.

It will be known as the battle of Haelen. Shells are still falling at half past seven in the evening on the roads around Diest.

The battle centered around Haelen in the Belgian province of Limbourg extending to Diest in the north of the province of Brabant after passing round Zedelhem.

At 7 o'clock last evening all the country between the three towns mentioned had been cleared of German troops except the dead and wounded who were thickly strewn about the fire zone.

Upwards of 200 dead German soldiers were counted in a space of fifty yards square.

A church, a brewery and some houses in Haelen were set afire and two bridges over the Demer were destroyed by Belgian engineers.

Great quantities of booty were collected on the battlefield and this has been stacked in front of the town hall in Diest. Many horses were captured.

The strength of the German column was about 5,000 men.

SOLD WEDDING RING FOR FOOD.

Mother of Six Moves Judge to Pardon Convicted Son.

Elizabeth, N. J., Aug. 13.—When Mrs. James Stern told how she had sold her wedding ring to buy food for herself and six children, Judge James Connolly immediately pardoned her son Henry, who was convicted two months ago on a charge of receiving stolen wire.

WASN'T DROWNING AT ALL.

Cincinnati, O., Aug. 13.—A loud shout for "help" startled the bathers in the Chester park lake and all looked in the direction of an overturned boat among the most turbulent of the machine-made billows. They could see a person floundering near the boat. Those closest to the scene remembered having seen a modestly dressed "country" chap in the boat but a few minutes before. From all directions swimmers started for the scene.

But past them shot a small boat with but a single occupant. The boat was labeled in white letters, "Life Guard 8." Close to the apparently drowning youth the guard threw out a lifebelt, and a moment later jumped into the water. After he grabbed the young man by the neck, he pulled him out of the water.

PUBLIC BUILDINGS PACKED BY WOUNDED

London, Aug. 13.—A dispatch to the Exchange Telegraph company from Basel, Switzerland, says:

"Following a terrible battle at Muelhausen the hospital facilities proved absolutely inadequate to care for the almost inestimable number of wounded.

"Not only are all the hospitals filled, but schools, churches and hotels are occupied to their capacity. Even then it has been found necessary to charter special trains to convey the wounded to Mulheim and St. Ludwig and other towns.

"The latest estimates place the German losses at from eight to ten thousand."

other help arrived. Then, to the amazement of Life Guard No. 8, the victim he had been towing suddenly straightened out, kicked off his clothes, disclosing a life guard on the shoulder. That is how Ralph Weatherly, a swimming instructor, was rescued.

GREAT BRITAIN MAKES FORMAL DECLARATION AGAINST A NEW FOE

LONDON, AUG. 13.—It is officially announced that a state of war has existed between Great Britain and Austria-Hungary since midnight.

The British foreign office later issued the following statement: "Diplomatic relations between France and Austria-Hungary being broken off, the French government requested his majesty's government to communicate to the Austro-Hungarian ambassador in London the following declaration:

"Having declared war on Serbia and thus taken the initiative in hostilities in Europe, the Austro-Hungarian government has placed itself without any provocation from France in a state of war with France and after Germany had successfully declared war against Russia and France, Austro-Hungary has interfered in the conflict by declaring war on Russia who already was fighting on the side of France. According to information worthy of belief Austria-Hungary has sent troops over the German frontier in such a manner as to constitute a direct menace against France. In face of these facts the French government finds itself obliged to declare to the Austro-Hungarian government that it will take all measures permitted to it to reply to these acts and menaces."

"In communicating this declaration, accordingly, to the Austro-Hungarian ambassador in London his Britannic majesty's government has declared to His Excellency that the rupture with France having been brought about in this way, it feels itself obliged to announce that a state of war exists between Great Britain and Austria-Hungary as from midnight."

APPLY TO AMERICAN CONSUL.

As soon as the declaration of war by England on Austria-Hungary became publicly known a large number of Austrians and Hungarians resident in London, who were liable to be called for military service, applied to Robert P. Skinner, the American consul general for enrollment. The clerks of the consulate general at once began stamping the men's military books and this will be regarded by the Austrian authorities as evidence that the holders were ready to perform their duty.

In accordance with previous instructions received from Secretary of State Bryan, Consul General Skinner has notified the American consuls throughout the British Isles to take over the Austrian consulates.

Ambassador Walter Hines Page was ready to assume charge of the Austro-Hungarian embassy here as soon as requested to do so. The number of Austrians and Hungarians in the British Isles is not known, but it is expected they will aid considerably to the problem of the relief committees.

MANY TOURISTS HARD PRESSED FOR FUNDS

London, Aug. 13.—The fashionable season in Switzerland was at its height when war was declared, and as a result more than 10,000 English and American tourists are stranded in that country. The British minister at Bern has issued the following proclamation: "During mobilization travel through France is impossible and tourists are recommended to remain where they are until it is possible to arrange for transit."

Many tourists are hard pressed for the bare necessities of life. Some are trying to borrow small amounts on their letters of credit, these being offered for large sums.

THE SENTINEL'S DAILY SCRIPTURE READING.

John 4:43-54.

43 Now after two days he departed thence, and went into Galilee.
44 For Jesus himself testified, that a prophet hath no honour in his own country.
45 Then when he was come into Galilee, the Galileans received him, having seen all the things that he did at Jerusalem at the feast: for they also went unto the feast.
46 So Jesus came again into Cana of Galilee, where he made the water wine. And there was a certain nobleman, whose son was sick at Capernaum.
47 When he heard that Jesus was come out of Judea into Galilee, he went unto him, and besought him that he would come down, and heal his son: for he was at the point of death.
48 Then said Jesus unto him, Except ye see signs and wonders, ye will not believe.
49 The nobleman saith unto him, Sir, come down ere my child die.
50 Jesus saith unto him, Go thy way; thy son liveth. And the man believed the word that Jesus had spoken unto him, and he went his way.
51 And as he was now going down, his servants met him, and told him, saying, Thy son liveth.
52 Then inquired he of them the hour when he began to amend. And they said unto him, Yesterday at the seventh hour the fever left him.
53 So the father knew that it was at the same hour, in the which Jesus said unto him, Thy son liveth: and himself believed, and his whole house.
54 This is again the second miracle that Jesus did, when he was come out of Judea into Galilee.

More Competition in Paving

Fort Wayne property-owners are to be congratulated upon the prospect for more active competition for the street paving work which is soon to be let. Beyond question a little more lively scramble among the contractors for work of this character will not only tend to secure for the property owner a favorable shade in prices, but will enable the work to be done more expeditiously. Both conditions are highly desirable from the standpoint of the man who is compelled to pay and the public which uses the streets.

Frequently in recent years, with but two or three contracting firms engaged in doing street improving work in Fort Wayne, it has been found that each was so overloaded with work that there was aggravating delay in proceeding with street work for which there was pressing demand. However urgent the necessity and however anxious were property-owners for new paving, it has been possible to get through with only a certain amount of the work in any given season. The result has often been disappointing. With all the contractors in the field well provided with work, and no other bidders in sight, the public was simply compelled to wait. That, in some cases at least, has meant final abandonment of improvement projects once well under way. The people will be infinitely better served if the competition in paving work is lively enough to guarantee the lowest cost consistent with good work, and numerous enough to get the work out of the way promptly after contracts have once been awarded.

A better understanding of the handicaps under which European war news is gathered during existing conditions will very promptly acquit American newspapers of the charge of anti-German tendencies which have been lodged because of the fact that practically all the news now available is coming through English and French sources. The cutting of the cables to Germany has rendered absolutely helpless the scores of Associated Press correspondents and other newspaper writers in German territory. Unquestionably, too, they are fuming and fretting in an anxiety to give American readers full and unbiased reports of the German operations that greatly overtops American anxiety to receive them.

Disease Prevention day, October 2, observance of which is now being urged upon Fort Wayne, is too important an event to be allowed to pass without definite local recognition. The years are proving beyond question the value of educational campaigns against disease, for, after all, no medicine is quite so good as preventive precautions that will point the way of escape from disease. By all means let Fort Wayne observe Disease Prevention day in appropriate fashion.

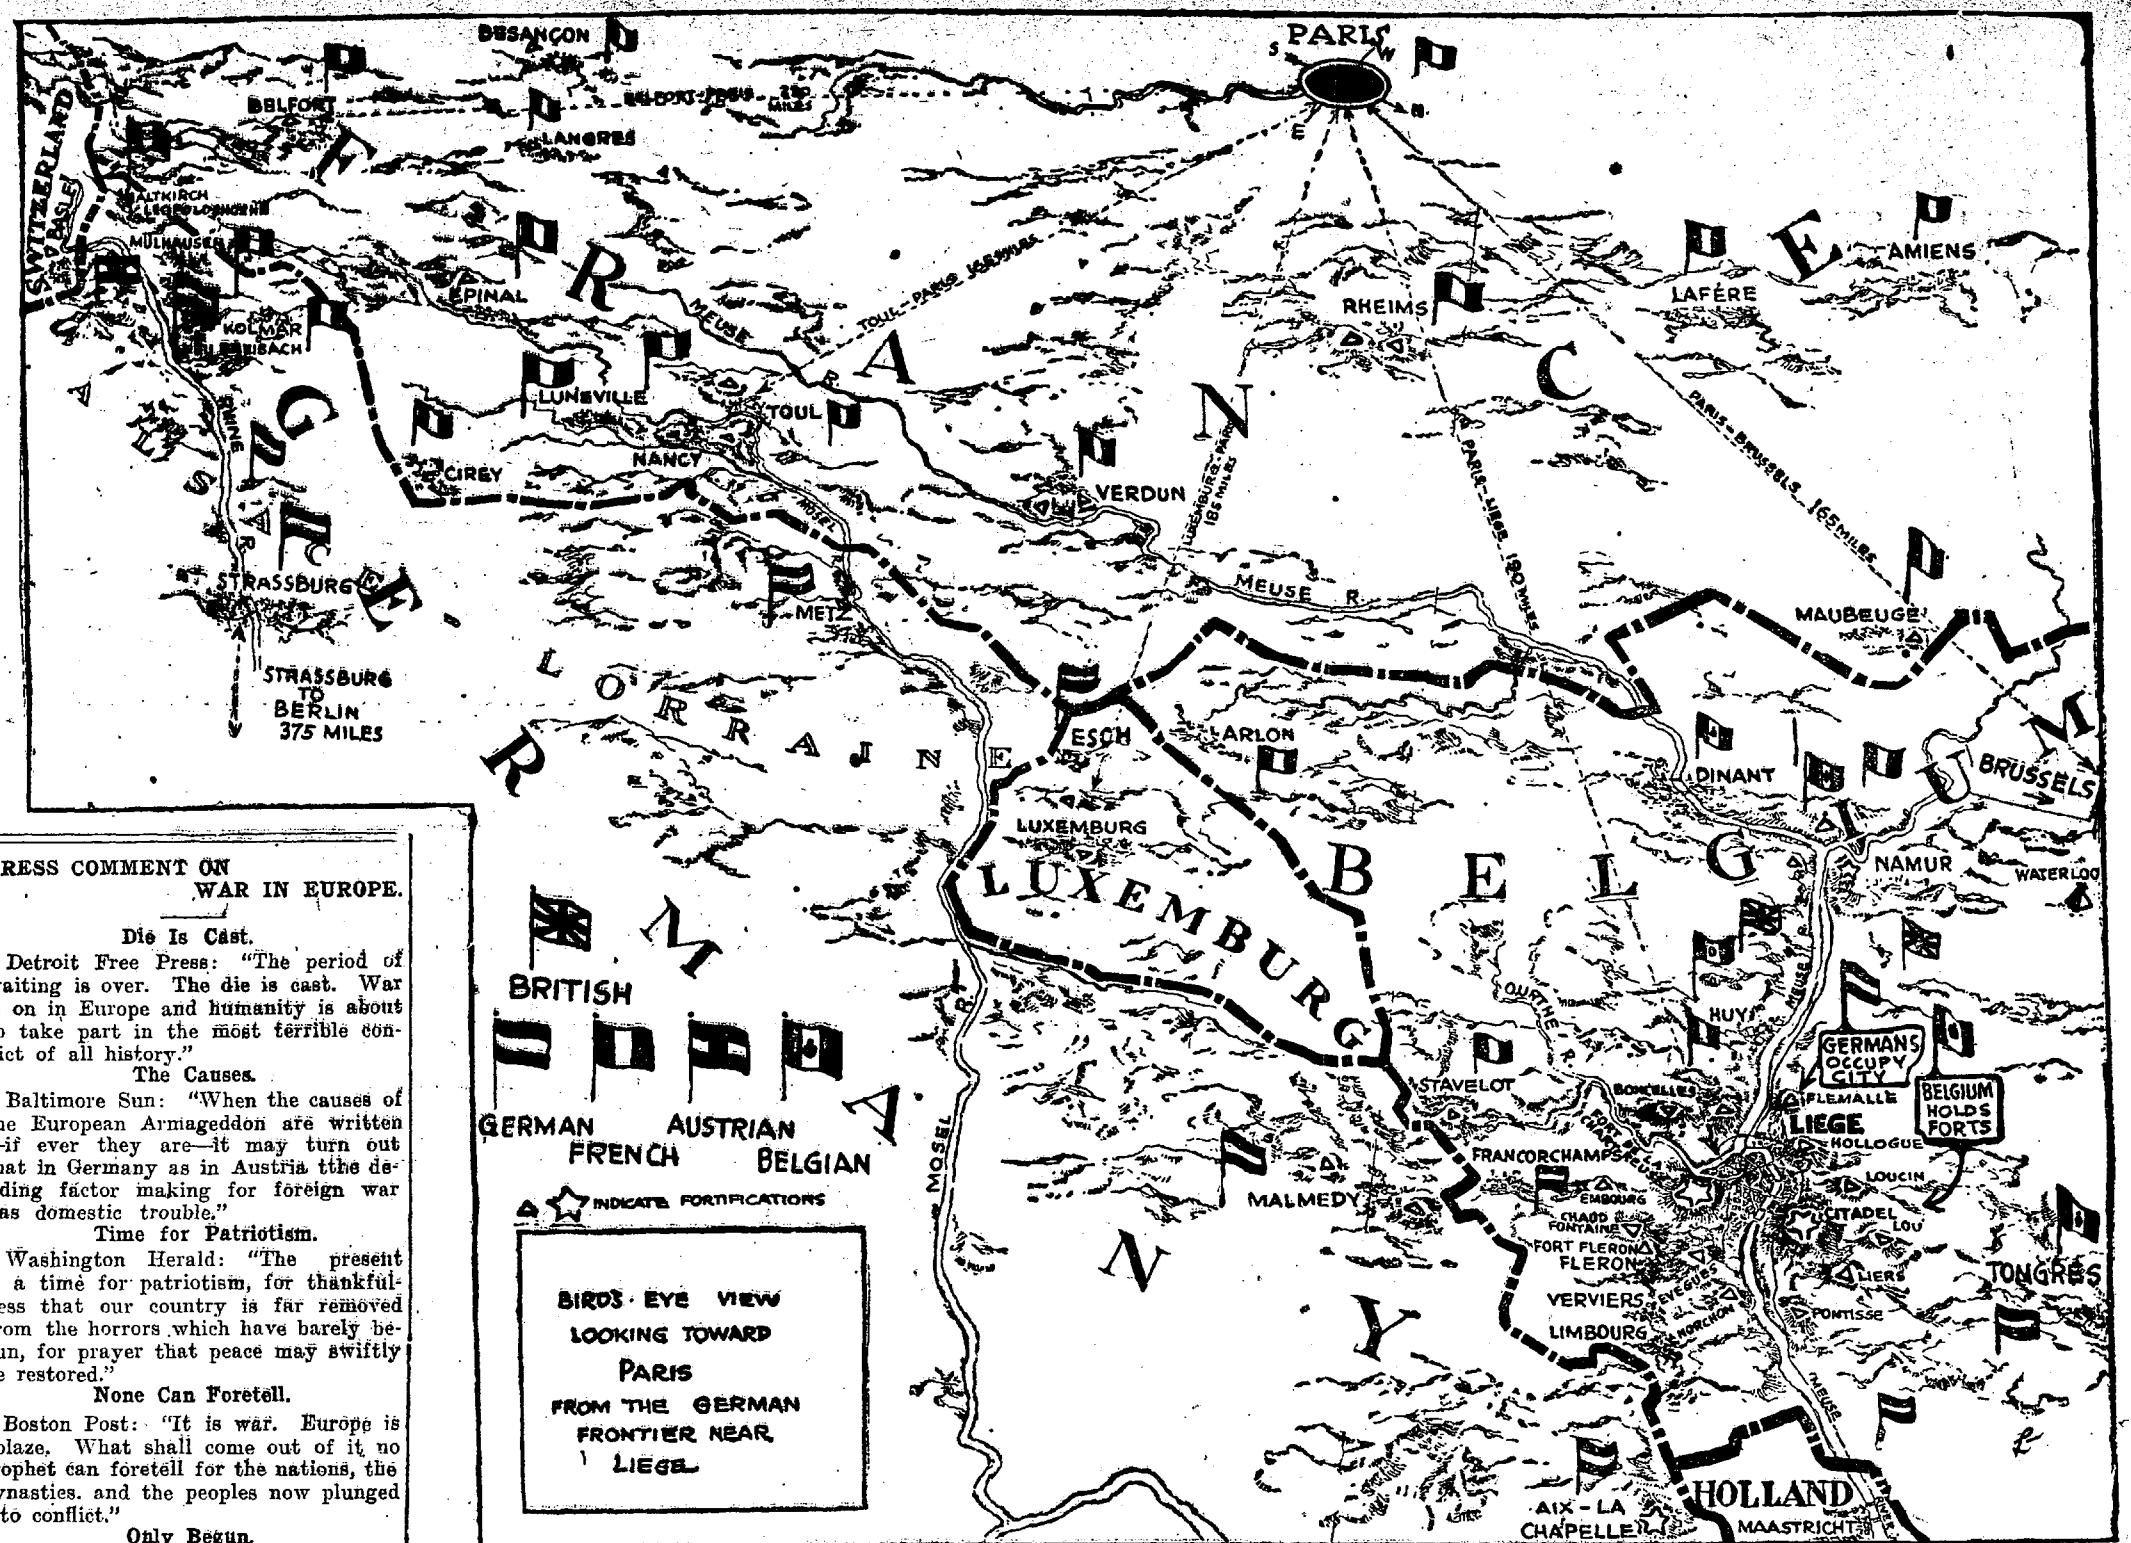

The decision of the federal court in the long-drawn-out action against the International Harvester company, in which the latter is declared to be a monopoly and is ordered to dissolve, hardly comes as a surprise in view of the rulings of the federal courts in the case of other corporations of similar character. The promptness with which it is announced that an appeal will be taken by the company indicates, also, that the concern itself was somewhat prepared for the shock.

"Absolutely unwarranted" is the term used by the department of commerce in describing the recent amazing advance in the price of foodstuffs in the United States. The man who has the prices to pay will subscribe to the opinion that in its selection of descriptive phrases the department of commerce exercises a restraint that has seldom been approached by the word-painters of any age.

Aren't those Ohio republicans the unkind things? Just look what has happened to your uncle Joseph Benson Foraker in his effort to "come back" after sundry weary years of watchful waiting!

PRESS COMMENT ON WAR IN EUROPE.

Die Is Cast.

Detroit Free Press: "The period of waiting is over. The die is cast. War is on in Europe and humanity is about to take part in the most terrible conflict of all history."

The Causes.

Baltimore Sun: "When the causes of the European Armageddon are written—if ever they are—it may turn out that in Germany as in Austria the deciding factor making for foreign war was domestic trouble."

Time for Patriotism.

Washington Herald: "The present is a time for patriotism, for thankfulness that our country is far removed from the horrors which have barely begun, for prayer that peace may swiftly be restored."

None Can Foretell.

Boston Post: "It is war. Europe is ablaze. What shall come out of it no prophet can foretell for the nations, the dynasties, and the peoples now plunged into conflict."

Only Begun.

Buffalo Courier: "A story has only begun with the reckless aggression of Austria-Hungary and the line up of the powers of the rival alliances. Red chapters doubtless will be written."

Declaration of War.

Boston Herald: "The German occupation of the little independent State of Luxembourg was the declaration to the world that there is nothing in the name of neutrality when big nations fly at each other's throats."

Man-made Calamity.

Buffalo Enquirer: "The greatest calamity in the history of the world is at hand. What sickens the thoughtful is that it is man-made calamity."

Appeal to Reason.

Boston Globe: "This is the time if ever, for the great financiers and business men of the world; for the labor interests; the churches, the pacifists generally and the nations that are not involved to make an appeal to reason."

TO GUARD AGAINST TYPHOID.

(Indianapolis Star.)

Physicians in Indianapolis and other cities will soon prepare to look for the typhoid-fever harvest, which begins soon after the people who have been spending their vacations away from home.

In spite of all that has been said concerning the importance of pure water and proper sanitary arrangements, very many persons are careless about such matters and when they go on summer wanderings simply "trust to luck" that all will be well and take few precautions to insure themselves against disease. Even where conditions are as they should be at any given resort or hotel, tourists wander about in rural places and drink water and milk about whose quality they know nothing and that are often contaminated.

Much more attention is paid to sanitation than formerly at all places where people are accustomed to congregate, but the absence of general security makes vaccination against typhoid a desirable precaution for all who do much traveling, but especially for those who spend their summers at points where it is difficult to guard against risk. Typhoid vaccination has been given a sufficient test to prove its value as a preventive of disease. It has been compulsory in the army for two or three years and the fever has practically disappeared, whereas the percentage of cases was formerly high. No malady is more to be dreaded than typhoid and when immunity can be so easily secured it is folly to neglect to obtain it.

"DOCTORED" WAR REPORTS.

The Suffrage Movement And Womanly Beauty

The newspapers happily have proven by printing photographs of many suffrage leaders that they are up to the minute, both as to clothes and as to beauty and we contend modern women are beautiful because they have learned to care for themselves and study beauty methods. Then, too, we have found an astonishing thing—namely that they have discarded face powder. The reason complexions suffer so much in summer is because powder does not offer sufficient protection against the hot sun. A plain aprimax lotion not only safeguards the skin from the elements, but in itself is a beautifier of great worth. To prepare this lotion at home, dissolve ounce of aprimax in quart of water, add 1/2 pint of water (or witch-hazel) and 1/2 teaspoonful of glycerine. The result is a skin that becomes invisible and imparts a healthy, soft, and natural

deal has been said by papers recently regarding their inability to obtain facts relative to the European war. People wishing to become informed on the war question cannot do so by reading these "doctored" reports which have passed through the hands of the censors of France and England. But there is a way to obtain the facts, although they will seem stale at the time of publication, they will be none the less authentic. A good many newspapers are publishing special articles, written by military experts, men whose business it is to become informed along these lines. As yet we have had nothing from these experts other than what would probably be the movements of the different armies, the necessity of the occupation of Liege by the Germans, etc. The real facts concerning the different battles will come later, and they will come from such a source that their truthfulness cannot be doubted.

People, especially students, are desirous of learning as much as possible about the conflict, and by following these special articles will, after the war is over, have amassed a great deal more real information and have a far better understanding of existing conditions in general than will be published in history for several years.

Yours very truly,
WILLIAM PRESTON.

The Possibilities of a Porch

TO transform a porch into an airy outdoor living-room for the summer is very little trouble. You need only a few chairs, a table, and a porch light. The light—because evening is the time when the porch living-room is most appreciated.

EDISON MAZDA LAMPS

If you use EDISON MAZDA Lamps in your home, the porch light will cost you very little, for you know with EDISON MAZDA Lamps you can have three times as much light as you can with old style carbon lamps—and still use no more electricity.

Let us demonstrate the saving and convenience of these lamps to you.

There's a Reason Why Firmsett Eyeglasses Should Be Exclusively Worn

If your lenses or mounting does not properly conform to the contour of your face or not be in correct relation to your eyes, you will certainly become nervous and irritable. Should the lens not be large enough, you are constantly being annoyed by the reflected light from its edge. With the old fashion screw and hole you constantly have the metal sticking out into the field of the lens. All of these disagreeable features are eliminated with our **FIRMSETT EYEGLASSES MOUNTING**. No holes, no screws, nor loose wiggly lens, large and inconspicuous, but above all, comfortable.

SEA FIGHTING IS NEAR IN PACIFIC

San Francisco, Aug. 13.—According to the captain of the German cruiser *Leipzig*, now off this port, eight war vessels flying the flags of belligerent nations are on the Pacific coast each daily expecting conflict with one or more of its adversaries.

That he is optimistic concerning the outcome of engagements in which his command may be involved, may be shown by his remark to Baron von Schaak, acting consul for Germany, who visited the *Leipzig* yesterday accompanied by newspaper men.

"It would not take us long," he said, "to believe we could dispose of them at the rate of one a day."

The trip to the vessel was arranged by a San Francisco newspaper in the interests of two sailors aboard the *Leipzig* reported in need of hospital attention. An endeavor to reach Mayor Rolph to invoke, by wireless the extra-courtesy of the port to land the sick men, proved fruitless but Captain James Hays of the pilot boat *Adventure*, informed the officers of the *Leipzig* of the approach of the acting German consul aboard the launch, *Alert*.

The *Leipzig* steamed to a point a few miles distant from the Farallon islands, 37 miles off shore where the launch was encountered. Baron von Schaak and the newspaper men were received aboard the *Leipzig* by Capt.

Huan and arrangements were made for the landing of the sick sailors. Capt. Huan announced his intention of entering this port soon for coal and said his duties might keep him in this vicinity for some time.

He also said that he is in constant communication with the German cruiser *Nürnberg*, which is hovering outside the port. When asked whether he would seize American coal if being transported in British vessels, he answered, "I cannot do that."

After a consultation between Baron von Schaak and the officers of the cruiser a hasty return to land was made. One of the sick sailors who was suffering from appendicitis, was operated upon successfully at a hospital. The other, suffering from blood poisoning, is in no danger, it was said.

The British steamer *Francisco*, which arrived today from Hull, has two guns mounted on her deck aft. Captain Runtton explained that fifty vessels of the British merchant service are to carry guns. Twenty-five vessels have already been equipped.

The German cruiser *Leipzig*, now off this port, is stripped for action, all deck work having been jettisoned. "We had many fine boats," Lieut. Stanke said to newspaper men who visited the vessel. "They included a beautiful steam launch and a motor launch, the

THE KAISER AT THE FRONT TO LEAD HIS TROOPS.

THE KAISER AMONG HIS SOLDIERS

Kaiser Wilhelm is reported prepared to assume supreme command of the German army that is trying to force the passage of Belgium and Luxemburg.

This means that the real test of the Allies is at hand. The English, French and Belgian armies that have concentrated on Namur and the line extending from that point across to a point in Luxemburg, which is not revealed, will have to check the real German army, as the presence of the Kaiser means that the crack Prussian infantry, heretofore believed to have been held in reserve, will attempt to push south along the Meuse River.

Leipzig's pride. But we decided that nothing should be left to encumber us when we engaged the enemy. We took all our boats and towed them out from the ship. We then loaded our 'four inchers.' It was splendid target practice. Every shot took effect and our boats disappeared."

Among the eight hostile craft which the officers of the *Leipzig* boasted they would sink one day, the following were given: British cruiser *Rainbow* and sloops of war *Algerine* and *Shearwater*, both off the Mexican coast, French cruiser *Monclan*, last reported off the Mexican coast, and two unidentified cruisers of the Australian navy, which are believed to be sailing in the direction of San Francisco.

WILSON ASKS FOR RED CROSS FUNDS

Washington, Aug. 13.—President Wilson, in his capacity as head of the American Red Cross, today appealed to the American people to contribute money for the relief of sick and wounded soldiers of the warring European nations. The appeal was as follows: "To the People of the United States:—The present wars in Europe are certain to impose upon the Red Cross of the nations engaged a burden which demands the sympathy and aid of the world."

"The American Red Cross is earnestly desirous of assisting its sister societies in their endeavors to alleviate distress and suffering among the combatants, and, therefore, appeals for funds to be expended impartially for the relief of the sick and wounded soldiers of the nations at war."

"Contributions for this purpose may be sent to the American Red Cross, Washington, D. C., or to local treasurers of the society in other cities. I confidently hope that the humanity and liberality of the United States so often manifested in the past will cause them to respond promptly and generously to this appeal."

(Signed) "WOODROW WILSON, President of American Red Cross."

A. Stout, Mr. and Mrs. G. V. Bogan and family.

A birthday party that gave pleasure to all concerned was given on Wednesday evening by Mrs. Bert Sinee, of 716 Washington boulevard west, in honor of Mr. Sinee's birthday anniversary. Cards were the order of amusement and the game was followed by the serving of excellent refreshments. There were present to enjoy the evening Mr. and Mrs. J. R. Pederspiel, Mr. and Mrs. William Moss, Mr. and Mrs. Frank Borgman, Mr. and Mrs. Philip Ormiston, Mr. and Mrs. Orla S. Miller, Mr. and Mrs. Archie Shearn, Mr. and Mrs. A. Burdoin, Mr. and Mrs. C. L. Knotts. Prizes in the card contest were won by Mesdames Ormiston, Shearn and Knotts and Messrs. Borgman, Burdoin and Shearn.

Miss Anna L. Cole the new general secretary at the Young Women's Christian association building, arrived in this city Wednesday evening and assumed her duties at the building Thursday morning. Miss Cole is a graduate of the University of Syracuse and bears the title of Ph. B. She had charge of the office of the Woman's Foreign Missionary society of the Methodist Episcopal churches in New York city for several years and had charge as general secretary of the Y. W. C. A. building at Binghamton, N. Y., when she accepted

the call in Fort Wayne. She has also taken a post graduate course in the National Training school in New York city. As yet she has made no definite plans for her work here.

Miss Mary A. Doty, who has been the new lunch director since the latter part of July, is a graduate of Cornell university, where, besides completing her course, she specialized in institutional management. She is well pleased with her work here and is making the lunches at the building very popular.

Miss Grace Dittendorfer, whose home is in this city, has acted as office secretary since October, 1913. Since the resignation of Miss Tinkham, the former general secretary, she, with the assistance of Mrs. Wagner and Mrs. W. H. Whitbeck, assumed the general secretaryship.

Mrs. Helen G. Wagner, the house secretary, has been at the building since December, 1913, coming here from Chicago, where she had charge of a settlement house. Several years ago she served as house secretary at the Y. W. C. A. building at Athol Springs, New York, and also had charge of other departments in the absence of the officials.

Breakdown Caused by Coffee

"I am satisfied," says a prominent physician, "that coffee is responsible in a great degree for the premature breakdown of our active men and women."

"They suffer from caffeine poisoning."

"Of the truth of this, there is not the shadow of a doubt. Our common sense tells us that the daily swallowing of caffeine" (the alkaloid in tea and coffee), "powerfully affecting heart and brain—is followed by nervous depression, and finally by more or less disastrous results."

"I believe if people in general would use a harmless, nutritious drink like Postum as a beverage in place of tea and coffee, their physical and mental condition would be much improved."

Thousands, troubled with nervousness, biliousness, sleeplessness, headache and heart flutter, have done precisely what this physician advises—given up tea and coffee and adopted—

POSTUM

with happy results.

"There's a Reason"

Postum is a pure food-drink, made from wheat and a bit of molasses, containing the nutrition of the grain. No caffeine—no drugs—no harmful ingredient in Postum. A delicious, nourishing beverage.

Postum comes in two forms.

Regular Postum—must be boiled, 15c and 25c packages.

Instant Postum—soluble—made in the cup, instantly, 30c and 50c tins.

Grocers everywhere sell both kinds and the cost per cup is about the same.

IF YOUR LIPS ARE PALE, A LITTLE TINTED GREASE WILL HELP—NOT HURT THEM.

(By Idah McGlone Gibson.)

A glance along the well trod streets of any of our larger cities gives one the impression that most of the girls of today are like that ancient Egyptian queen who declared it was most immodest to be seen in public without having one's face painted.

Never in the history of the world was painting the face of women so universally practiced as it is today.

Fashionable women of all ages practice this more or less beautifying process openly. They carry around little boxes of leather of silver which contain black, red and white pigments and they can be seen repairing the ravages that time, perspiration, smiles or tears have made in the restaurants, on the street car or in any other public place.

Indeed, yesterday I saw a pretty girl hold up traffic on a street in Chicago when she deliberately powdered her nose while looking into a diminutive mirror inside of her vanity bag.

This is, however, one extreme at the other end of which is the woman who proclaims proudly: "I never use powder or face cream."

She usually looks the part. These women always remind me of others who always affirm: "I always speak the truth—tell just what I think."

You can depend upon one of these women to disclose to you an ugly uncare for countenance and the other to impress you with a disagreeable biased mind.

The thing to remember in this world is that everything is for man's use—but he must know how to use it.

I never have seen a complexion yet that a dusting of powder did not improve—but one must not put it on with a trowel and dust it off with a feather.

One must also be very careful that the tint of powder one uses is the color of one's complexion.

I have a friend who always uses powder.

dered orris root on her face. She is very dark with coal black hair and eyes and plenty of color. The yellow brown of the orris root is precisely the tint of powder which brings out her complexion. White or pink would call attention to the dark tint of her skin.

"I take a box of the usual pink tint and a box of white and mix them for the tint I use when not working," said Beverly Bayne.

The white powder is too colorless and the pink is too rosy for my complexion.

You must remember that using rouge is not a matter of morality but a question of taste. Today, when almost any woman takes a "lip stick" and paints her lips at the dinner table with the same unconsciousness with which she uses the finger bowl one may give some advice without seeming to touch on a forbidden subject.

As with powder one must know how to use rouge if one would not look like a circus clown. Don't make your lips too scarlet, neither use the purple red that makes them look like the vampire.

If your lips are pale a little tinted grease will improve their looks and not hurt them.

Miss Bayne does not advise a girl under 25 to use rouge. By exercise and right living she can produce a natural color that will be sufficient.

STILL HOPE FOR WATERWAY BILL

May Be Passed During the Trust Measures Conferences.

Washington, Aug. 13.—Friends of the river and harbor appropriation bill, which has been temporarily side-tracked in the senate for anti-trust legislation, have agreed to make a superhuman effort to pass the bill at this session of congress, rather than leave it to the mercy of the short session, which convenes the first Monday in December.

The supporters of the bill realize that it is going to be a herculean task to keep a quorum of either house in Washington after the anti-trust bills are out of the way, but they are going to try to pass the waterway bill while the conferences on the trust measures are being held, the senate having made a number of radical changes in these measures

since they left the house. It is anticipated that these conferences will continue for at least two weeks, which the advocates of the river and harbor bill believe will give them ample time to put the bill through the senate, even if the majority has to resort to continuous sessions.

So serious is the situation, however, that the representatives in congress, whose districts are vitally interested in waterway improvements, have started a "back-fire" and in consequence senators are beginning to receive telegrams from chambers of commerce, boards of trade and other commercial bodies, to say nothing of prominent citizens in the communities affected calling for the passage of the bill. Even delegations are on their way to Washington from different parts of the country, seeking to hasten the legislation which is imperatively necessary to keep the work of river and harbor improvements moving.

President Wilson is seriously considering the advisability of issuing an executive order changing the name of Culebra Cut, Panama, to Gillard Cut, in honor of the late Lieut. Col. D. D. Gaillard, who had charge of the engineering work in digging the cut, admittedly the greatest single feat in connection with the construction of the Panama canal. It is stated there is precedent for such an order, and the corps of engineers of the United States army are heartily in favor of thus honoring a very distinguished colleague.

The congress now in session has been the "talkiest" congress in all history, according to an examination of the statistics as to the comparative volubility of the members of this and preceding congresses. The Congressional Record, up to this date, contains about 14,000 pages for the present session, which began the first Monday in December. The largest Record achieved in a single session prior to this time was in the regular session of the fifty-ninth congress. It met in December, 1889, and continued

to the first of the next October, 304 days. It filled a Record of 10,800 pages. It is generally thought that the present congress will last at least six or eight weeks longer, which will add just that much more to a Record that is already perfectly awful to contemplate.

There used to be a fine old tradition that a new senator "should be seen, but not heard," during the first congress, but that has been relegated to the scrap heap, for the new senator does as much, and sometimes more, talking than his older colleague, which necessarily adds largely to the size of the Record.

Senator LaFollette gave the Record this season a big boost, when he had inserted a mass of letters and other matter sent to the interstate commerce commission to influence its decision in the advanced rate case. That material filled 365 pages and captured the championship for putting the most matter into the Record at one time.

Shortly before it became known that Mrs. Wilson was dangerously ill it was

NOVEL MASSAGE CREAM.

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara and when this pure skin cream is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequalled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only antiseptic massage cream, and pimples, eczema and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage creams and sold on a guarantee of "best you ever used or money back," yet the price is a trifle, only 25c for a liberal jar; larger size 50c.

ANNUAL BIBLE CONTEST NEXT

Important Feature on the
Winona Program for
Friday.

Winona Lake, Ind., Aug. 13.—This
important feature of the work of the
Bible school will be presented in the
Auditorium Friday afternoon, August
14, at 2:30 o'clock. It will be in charge
of Dr. Parley E. Zartmann, who is con-
ducting the Bible school.

This event, like the annual spelling
contest, always arouses a great deal of
interest and enthusiasm, and large audi-
ences witness the contest as the Bible
students test their knowledge of the
leading facts of scripture history.

Dr. Zartmann has prepared a long list
of interesting and instructive questions
and three competent judges will decide
on the correctness of the answers. Three
valuable prizes will be given to the win-
ners of the contest. A cordial invita-
tion is given to all to attend, and all
Bible students, except ministers, are in-
vited to take part in the contest.

James F. Stutesman's Lecture.
The afternoon audience at the audi-
torium enjoyed an unusual literary
treat Tuesday, when Hon. James F.
Stutesman, ex-United States minister to
Bolivia, gave his lecture on this far off
country. His presentation of the sub-
ject was comprehensive and accurate,

but at the same time it was made ex-
ceedingly attractive by the polished
phrases and dignified eloquence of the
speaker. Mr. Stutesman recited his own
experiences and observations, and every
sentence was illuminated with a person-
al magnetism which held his hearers in
closest attention. There were no dull
periods in the lecture and no one left
the building before the end of the ad-
dress. Mr. Stutesman's home is at
Washington City, and he was brought
to Winona to fill a vacancy on the
Chautauqua program. No one who
heard his lecture regretted that the vac-
ancy which gave opportunity for his
appearance had occurred.

seph hospital, where she has been a pa-
tient for some time and is convalescing.

BIDDING WILL BE FULL OF SPIRIT

Lively Competition Promised in Fight for Paving in Contracts.

The prospect at 3 o'clock Thursday afternoon was that there would be at least nine and possibly more bidders in competition for the seventeen paving contracts for which proposals were to be received Thursday evening by the board of works. With the specifications pulled wide open on asphalt and asphalt composition pavements outsiders have been drawn into the fight and there are some others ready to submit proposals on concrete pavement, which for the first time are admitted to the specifications in Fort Wayne. Among those expected to submit bids are the following:

Grace Construction company, Fort Wayne; Brooks Construction company, Fort Wayne; Moellering Construction company, Fort Wayne; Krudop Construction company, Fort Wayne; Foulkes Contracting company, Terre Haute; Johnson Construction company, Chicago; Trippier & Sons, Peru.

The specifications provide for pavements of eight or nine different materials or types of construction. Bids will be received for paving the following streets: Caroline, Sutherland to Pontiac; Wayne trace, Anthony to its intersection with New Haven avenue, and New Haven avenue to its intersection with Birchwood; Webster, Butler to DeWald; Webster, Killea to Wildwood; Downing, Hoagland to Fairfield; Hayden, Hanna to Anthony; Eliza, Francis to Gay; Maumee, Sidney to the city limits; Grant, Wayne to Maumee; Wayne, west property line of Grant to east property line of Grant; Oneida, Lake to Riverview; Superior, Spy Run avenue to Lafayette; Hendricks, Fairfield to Martin; Martin, Hendricks to Broadway; Putnam, Wells to Jessie; Fifth, Cass to Wells.

WILL START SEWER CLEANING.

Board Expects to Get at the Interceptor Next Week.

It was the expectation that the big hole in Erie street at Howard street, where the arch of the intercepting sewer broke and caused an immense cave-in, will be completely filled by Thursday evening. The long and expensive task of repairing the sewer may then be pronounced completed. The board will at once have sewer men explore the big conduit and begin preparations for cleaning, which work will probably be inaugurated next week. Ambrose Geary, a sewer man of wide experience, has left the service of the Moellering Construction company and taken employment

DISEASE PREVENTION DAY.

Mayor Hosey will soon issue a proclamation to the people of Fort Wayne designating Oct. 2 as "disease prevention day" in this city. That day will be proclaimed throughout Indiana by Governor Ralston and a state-wide effort is under way to have it suitably observed in every community in the state. W. D. Thurber, secretary of the movement, and of the Indiana Society for Prevention of Tuberculosis, has been here arranging with Mayor Hosey and Dr. H. O. Bruggeman, of the board of health, for an appropriate observance of the occasion.

INSIST ON ENGINE HOUSE.

Citizens of the Tenth ward will hold a mass meeting in the James H. Smart school next Monday evening to make protest against the proposal that there be no appropriation in the 1915 municipal budget for building a fire engine house in that ward. The city comptroller

omitted from his recommendations any provisions for that engine house. A site was purchased a year and a half since for the house, but Tenth ward people want that site, which is at the corner of Reed and Fisher streets, sold and another farther west and south purchased. Councilman Korte, of the Tenth ward, will make a fight in the council to have provision made for erecting the building next year.

MCCULLOCH PARK CONCERT.

Under the direction of Bert C. Heller the Citizens' band will play for the municipal concert to be given Friday evening at McCulloch park with the following program:

COUNCIL PROCEEDINGS

The common council of the city of Fort Wayne met in the council chamber Tuesday evening, August 11, A. D. 1914, in regular session. President Wm. A. Sawyer, in the chair and Gustav W. Boeger, clerk, at the desk; present the following members, 15, viz:

Agne, Boyer, Deitschman, Hartman, John, Koller, Kinder, Kott, Lepper, Miller, Offenbach, Rogge, Schlebecker, Smith, Welch.

Absent, none.

The minutes of the last regular session having been delivered to the council, were on motion approved as published.

MAYOR'S COMMUNICATION.

Fort Wayne, Ind., July 30, 1914.

Honorable Common Council:

Gentlemen: I have approved the following ordinances and resolutions passed at your regular session of July 28th, 1914: General Ordinance No. 659—An ordinance giving the controller the power to loan the park board money from the general fund.

General Ordinance No. 660—An ordinance regulating the storage and handling of manure.

General Ordinance No. 661—An ordinance authorizing the alienation of certain personal property.

General Ordinance No. 662—An ordinance authorizing the board of public health to employ an additional salaried policeman and fixing the salaries of all sanitary police.

Resolution No. 108—A resolution instructing the board of public works to at once prepare necessary resolutions for the separation of grades at Walton avenue.

Respectfully submitted, WM. J. HOSEY, Mayor.

Received and spread on record.

MAYOR'S COMMUNICATION.

Fort Wayne, Ind., Aug. 11, 1914.

Honorable Common Council:

Gentlemen: I herewith submit for your consideration the estimates of the several departments which will be required for the general appropriation account for the year 1915, as revised by the controller and approved by me. The estimates are revised and approved as based on a tax levy for general purposes of eighty-five and one-half cents (\$85½) on each one hundred dollar valuation of taxable property, and a total levy of \$1.10.

In reviewing the estimates of the departments of public works, safety and finance, I have deemed advisable to increase from the general appropriation at the present time one item of \$20,000.00 for river dredging, also \$15,000.00 requested by the board of public works for motorizing three pieces of apparatus at No. 1 engine house, and to transfer to the waterworks departments the burden of paying the interest on the bonds issued for construction of the waterworks—amounting to \$8,610.00, heretofore paid by the department of finance out of general funds. The added expense to the waterworks department will not impair its efficiency in any way in providing needed extensions of service to the city. It will result in a saving of \$8,610.00 per year to the taxpayers. It must not be inferred that the cutting out of the \$20,000.00 from the present estimate and \$15,000.00 for motorizing fire apparatus was due to lack of appreciation on the part of either the controller or myself of the cost of the desired improvements, but solely for the purpose of deferring action in appropriating the large sums of money involved until the cash balance at the end of the present fiscal year and the actual revenues received by the city during the ensuing year, can be more accurately ascertained.

Trusting the revised schedule of estimates will in general meet with your approval, I am,

Respectfully yours, WM. J. HOSEY, Mayor.

Received and spread on record.

COMMUNICATION FROM THE CONTROLLER.

Fort Wayne, Ind., Aug. 10, 1914.

To the Honorable Common Council:

Gentlemen: I am sending you herewith an ordinance appropriating two hundred dollars (\$200.00) to the salary account of the department of finance for the salary of one stenographer from September 1, 1914, to January 1, 1915; also two hundred dollars (\$200.00) to the incidental account of the department of finance.

Respectfully, W. C. BAADÉ, Controller.

Received and spread on record.

ESTIMATES OF THE VARIOUS DEPARTMENTS.

Fort Wayne, Ind., Aug. 10, 1914.

To the Honorable Mayor:

I herewith submit to you the estimates submitted to the controller by the various departments of the city government, showing the amount of funds which in their judgment will be required to run the fiscal year ending December 31, 1915, which I have hereto attached.

The department of finance estimates it will require an amount of interest at \$5,300.00 on the condition that the waterworks department takes care of the payment of the interest on the bonds, interest amounting to \$8,610.00.

If it be decided that the waterworks department should not pay this amount, \$8,610.00, then the department of finance, from the estimate of the other departments, and added to the estimated requirements of the department of finance.

Respectfully yours, W. C. BAADÉ, Controller.

DEPARTMENT OF LAW.

Fort Wayne, Ind., July 27, 1914.

DEPARTMENT OF PUBLIC HEALTH.

Fort Wayne, Ind., July 28, 1914.

Wm. C. Baade, Controller, Fort Wayne.

Dear Sir: In compliance with your request for our estimate of needed funds for the year 1915, we submit the following:

The usefulness, enjoyment and consequent popularity of our parks more than keep pace with the demand for them. No expenditure of a portion of the city's revenues is more fully appreciated by all classes of our citizenship than that which is thus expended.

The demands for better care and for further needed improvements are most insistent and cannot be met by the resources of the city. We can not give even reasonable consideration to such demands on any less revenue than that derived from the nine-cent levy provided for by the law of 1911.

The series of forty band concerts given in our parks during the present year is proving extremely popular and will be continued by our board for the year 1915 under this nine-cent levy.

The doubling up of property values which has occurred in the vicinity of our parks and boulevards proves the wisdom and good business sense of the expenditure on the part of the city.

The above stated facts and figures show that the city is entitled to a fair share of the city's revenues for the purpose of maintaining and improving its parks.

Respectfully yours, DAVID N. FOSTER, Mayor.

LOUIS DORN, Board of Park Commissioners.

BOARD OF SCHOOL TRUSTEES.

Fort Wayne, Ind., July 28, 1914.

To the City Controller and to the Common Council of the City of Fort Wayne, Ind.

Gentlemen: The board of school trustees to whom is committed by law the establishment and maintenance of public playgrounds under the act of March 6, 1913, respectfully petition that the levy for playground purposes under said act be fixed at 1½¢ on the \$100.00 valuation for the ensuing year. The present conditions and future demands are such that a levy of that amount will be required.

Respectfully yours, E. W. COOK, President.

MILLIONAIRE BAND OF MIZPAH TEMPLE TO PLAY AT SHRINER'S PICNIC

The title of "Millionaire" applied to the famous band of Mizpah temple, A. O. N. M. S., is not meant to convey the idea that each member is a millionaire, but that the aggregate wealth of its members, according to reliable statistics, is more than \$1,000,000. The musicians in the Shrine band play be-

cause they love music and because they are enthusiastic Masons and Shriners. Nearly every instrument known for band music is used by the Mizpah band. This band has the distinction of being made up almost exclusively of professional and business men. Two or three, however, are also professional musicians. In its membership are sev-

eral capitalists and some two or three bank directors. The capitalist may play the bass horn and the banker may hammer the bass drum. The band is under the leadership of Prof. J. L. Verriere, the noted cornetist, and rehearsals are held at the Shrine temple each Wednesday evening. Every winter the band gives concerts on Sun-

day afternoon at the Scottish Rite cathedral, and the large audience testify to the popularity of the band among the Scottish Rite Masons and their families. During the coming winter the band will give concerts in the Shrine temple for the entertainment of the families of the Nobles. They have also filled several engage-

ments out of the city, among other places being entertainments given by the Masons of Garrett, Kendallville, Knox, Columbia City and Grand Rapids, Mich. In addition to furnishing the music for the picnic of the Shriners at Robinson park tomorrow, the band will go to Knox on the 29th instant and will also

fill an important engagement for the Knights Templar at Lima, Ohio, during October. They never play for money, but give up their time for the musical education they receive and to advance the interests of Masonry and of Shrinedom. Much of the past success of the band was due to the untiring efforts of the

late Dr. R. Parks White, who was an indefatigable worker in its cause. Playing with the Shrine band was one of his greatest enjoyments and although in poor health, he persisted in accompanying it to the imperial council meeting at Los Angeles, where the band achieved new honors.

tion 1. Be it ordained by the common council of the city of Port Wayne that it shall be unlawful for any person, firm, company or corporation to propel or move, or cause to be propelled or moved over and along any street or alley within the limits of said city, any traction or other engine or boiler unless the tires of the wheels thereon are smooth. Provided, that this ordinance shall not be construed to prevent the use of steam rollers or other apparatus, employed under contract by the city of Port Wayne for the improvement or repair of any street or alley of said city, and provided further that this ordinance shall not apply to or be held to limit, modify or prevent the use of steam fire engines or other apparatus employed by the city of Port Wayne in connection with any department of public service.

Section 2. That this ordinance be in full force and take effect on and after its passage, legal publication and approval by the mayor.

GENERAL ORDINANCE NO. 665.

An ordinance regulating peddlers, vendors and hawkers and requiring the use by them of scales on vehicles used for the sale of any commodity, and providing penalties for its violation.

Section 1. Be it ordained by the common council of the city of Port Wayne, that all peddlers, vendors and hawkers peddling, vending or hawking goods, wares, provisions or merchandise over and under any vehicle, shall have hung at all times on the end of the vehicle from which such goods, wares, provisions or merchandise are sold, a circular spring balance scale of not less capacity than thirty (30) pounds by one (1) ounce and equipped with a galvanized iron scoop open at one end, which said scale shall bear the seal of the state inspector of weights and measures.

Section 2. That all peddlers, vendors or hawkers selling any goods, wares, provisions or merchandise upon the streets of said city shall sell by weight whenever demanded by any purchaser, all commodities peddled or hawked by them, excepting liquids and commodities customarily sold by numerical count.

Section 3. That any person, company or corporation violating or failing to comply with the provisions of this ordinance shall be fined not less than five dollars (\$5.00) nor more than twenty-five dollars (\$25.00), and on any second or subsequent conviction for the violation or failure to comply with any of the provisions hereof the license of such peddler, vendor or hawker shall be by the mayor of said city revoked.

Section 4. That this ordinance be in full force and take effect on and after its passage, approval by the mayor and legal publication.

C. O. LEPPER.

The ordinance was read the third time in full and on motion the ordinance was now passed by the following vote:

ONION DAY AT WOLF LAKE.

Annual Harvest Carnival at the Center of Production.

Wolf Lake, Ind., Aug. 13.—Onion day, the annual harvest jubilee in this place, the center of the Northern Indiana onion belt, was inaugurated this morning and will continue tomorrow. Several thousand people drove into Wolf Lake today to join the celebration and enjoy the festival. A brass band started events officially at 7 o'clock this morning. People began coming early and the fine quality of the weather and the merits of the program drew an immense crowd from the country for miles around. An address by Avery M. Groves, a Fort Wayne journalist, was delivered during the morning, his subject being, "The Professional Farmer." A program of athletics, scheduled for the afternoon, attracted much attention. Base ball games and horse races featured the sporting events. Charles R. Lane, of Fort Wayne, republican candidate for congress in the Twelfth district, will speak tomorrow morning, his meeting being the official opening of his campaign. In the evening H. M. Widney, of DeKalb county, progressive candidate for congress, will speak. Another speaker on the program is Judge L. H. Wrigley, of Albion, incumbent of the Noble-Whitley circuit bench.

Girls' Day

The following rhyme from a little Fort Wayne mass has been received by Manager Williams. She signs herself "Helen." She is especially invited to the Girls' White Dress Parade and to march with the Honor Guard, so that she may receive one of the white parasols as a souvenir.

Oh, beautiful Robison Park! Oh, say! Will you go with me? Where the little squirrels peep As they gaily leap high in the hickory tree.

Close by the grand pavilion, Hundreds of girls you'll see! Girls dressed in white, their hearts in delight, For their day it has come to be.

The queen's carriage in spotless hue, The horses snow white too. We're waiting to see who the queen will be, While each one asks: "Is it me?"

Boys' day is all right, But it can't compare with the girls in white! Even the man ahead of the band, One of the best in all the land.

Little girls, big girls! Fat girls, lean girls! Girls short, girls tall! Each one wishes to be Queen of all.

RUSSIANS REPORT GERMAN REPULSE

St. Petersburg, Via London, Aug. 13.—The following official communication has been issued:

August 10 and 11 the enemy made careful reconnaissance on the frontiers of the governments of Kovno and Suwalki. A German detachment of four battalions, three squadrons of cavalry and eighteen cannon attacked Eydkuhnen, east Prussia, but was repulsed.

The communication gives details of a number of small frontier affairs. It is stated that Grand Duke Nicholas Michaelovitch soon will join the active army and it is believed most of the male members of the imperial family will follow his example. The Grand Duke Constantine has endowed a field hospital with fifty beds. The Grand Duchesses Marie and Helen have volunteered as hospital nurses.

GERMANS TAKE AMERICANS IN

Berlin, Via Copenhagen and London, Aug. 13.—A meeting of 500 Americans in the German capital was informed last evening that many German families were ready to take stranded Americans into their homes without cost.

The first on the list of those willing to do so was Adolf Wormuth, the lord mayor, who declared he would take three Americans.

The banks here also are ready to grant important credits to Americans. The president of the German bank declared that he would grant \$1,250,000 against adequate security.

ONE KILLED; ONE INJURED.

Miss Zella March Dies in Auto Accident Near Lafayette.

Lafayette, Ind., Aug. 13.—Miss Zella March, 21, was instantly killed and Miss Alberta Sherman was seriously injured last night in an automobile accident a few miles north of this city. There were seven persons in the automobile and all were injured. The machine, owned and driven by John Sample, cashier of the First National bank, went down a forty foot embankment. The girl who was killed was pinned under the machine.

COMPLEXION RUINED BY PIMPLES

Itched and Burned Badly. Also Had Blackheads. Used Cuticura Soap and Ointment. In Two Weeks Completely Well.

724 E. N. Ave., Olney, Ill.—"When my trouble first began I noticed little pimples coming on my face. They itched and burned so badly that I had to scratch them and that only made them worse. About a week later my face was so badly covered with pimples and blackheads that I was ashamed. My complexion was ruined. The pimples would sometimes bleed and fester."

"I bought a box of Cuticura cream and used it with but without effect. I also bought some — and a complexion cream but with the same poor result. One day I heard of Cuticura Soap and Ointment and I decided to give them a trial. So I got a cake of Cuticura Soap and a box of Cuticura Ointment, washed my face with the Soap and applied the Ointment and in two weeks I was completely well." (Signed) Chas. E. McGinn, May 6, 1914.

NEWS OF FORT WAYNE'S NEIGHBORS

STREAM HAS GONE DRY.

Churubusco, Ind., Aug. 13.—In his semi-weekly journal, the Busco Paper, W. A. Cook has the following to say about canal matters: "Not a wet and dry election, but a stream has gone dry. The small creek known as Blue Babe creek that goes a mile and a half north of Columbia City, which is on the Harris Columbia City route of the proposed canal, is as dry as a whistle. The editor of this paper was across this stream last week and found that it did not contain a teaspoonful of water. It is clear evidence that it is no place for the great waterway that is to be built. It would be folly to go ten miles out of the way to go through this little wet weather stream, when to go through the Churubusco route it will have an abundance of water the year round, that is already built in the shape of ever flowing lakes. A branch canal can easily be built through the Blue river valley to Columbia City from the Churubusco route."

WOMAN WANTED TO DROWN.

Huntington, Ind., Aug. 13.—Mrs. Sarah Shively was prevented from drowning herself in the Ferguson quarry by Samuel Fahl, who held her while a telephone call was sent to the police station. Mrs. Shively had declared her intention of throwing herself in the quarry to Mr. Fahl. She told the police that she had come to Huntington to collect debts which she claims are owing to her. Unsuccessful in her mission she decided to end her life. Mrs. Shively is practically an exile from Huntington, having signed an agreement with Police Judge A. J. Rosebrough to live away from this city for a period of three years. She signed the contract after she had been arrested for operating an immoral house on condition that her jail sentence be suspended.

TOCSIN TO FIGHT TYPHOID.

Bluffton, Ind., Aug. 13.—The discovery of more typhoid fever cases at Tocsin and vicinity has caused the health authorities to take further steps in an effort to discover the origin of the typhoid germs, and a determined effort will be made to try to wipe out the disease. Samples of the water from various wells will be sent to the state chemists, and particular attention also will be given the Chicago & Erie railway stock pens and yards, which were strongly under suspicion during a former epidemic. It is claimed that the pens have not been properly kept clean. A sample of water from the well at the stock pens will be analyzed. If the germs are traced to this source steps will again be undertaken to abolish the menace.

STAR WITNESS HAS FLED.

Hartford City, Ind., Aug. 13.—The cases against Lew Lindermuth, John Price and William Patrey, of Montpelier, charged with selling liquor to Homer West, a minor, have been dismissed in the court of Justice Croninger. Lindermuth was to have been tried Tuesday, Patrey on Wednesday and Price on Thursday. He dismissed was moved by Prosecutor Sprague because of the absence of Bud Morris, the state's principal witness. Morris is reported to have disappeared from Montpelier and gone to Oklahoma.

KENDALLVILLE WOMAN DIES.

Kendallville, Ind., Aug. 13.—Mrs. Catherine Butterfield, aged 71 years, is dead at the home of her sister, Mrs. Mollie Carriger, death resulting from a complication of diseases. She had been an invalid for several years and had been bedfast since last March. She was born in Holmes county, Ohio, and came here from Toledo. Surviving are three daughters—Mrs. Ollie G. Smith, of Toledo; Mrs. Jennie Detling, of Elkhart; and Mrs. Maude Lorraine, of Fort Wayne. Also three sisters—Mrs. Carriger, Mrs. Emily Buos and Mrs. Lavina Sturgis, of Allegan county, Michigan.

KEPT MARRIAGE SECRET.

Elphos, O., Aug. 13.—On May 2, Miss Marcelle Morkoetter and Richard McCormack, both of this city, were quietly married in Van Wert, and the secret has just leaked out. Mr. McCormack and Miss Morkoetter eluded their friends, went to the county seat town and were united in marriage and decided to keep the fact a secret. They are making their home with the bride's parents, Mr. and Mrs. John Morkoetter, on West Second street.

WOMEN HURT IN RUNAWAY.

Avilla, Ind., Aug. 13.—As Mrs. Chas. Brumbaugh and mother, Mrs. Ellen Fisher, were returning from the for-

mer's farm in Green township, their horse, which was a very nervous one, suddenly swerved to one side, upsetting the buggy, throwing the occupants to the ground and injuring them severely. Mrs. Fisher, who is a heavy woman, landed in the buggy top. She received severe bruises and a bad gash above the eye, while Mrs. Brumbaugh was severely bruised but no bones were broken as at first it was thought.

BOY BADLY KICKED BY HORSE.

Huntington, Ind., Aug. 13.—Glen Bosworth, 13-year-old son of John Bosworth, living on the John C. Moore farm, near Renner, was injured when a horse kicked him. The animal struck viciously with its hind feet, one striking the boy on the point of the chin and the other hitting him on the left side of his chest. His heart seemed to be affected for a time by the blow on the chest and he was made very sick.

TYPHOID SLAYS YOUTH.

Huntington, Ind., Aug. 13.—Sylvester Anthony Ehinger, 19 years old, is dead at the home of his parents, Mr. and Mrs. Frank Ehinger, in this city. Death followed an illness of three weeks of typhoid fever. He was employed at the Erie railroad shops as a machinist's apprentice, and had a wide acquaintance among the Erie employees and youths of Huntington.

CONVOY NEWS.

Convoy, O., Aug. 13.—Mrs. William Dwire and daughter, Florence, went to

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when the inflammation can be taken out and this tube restored to its normal condition, hearing will be completely restored; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. P. J. OHENNEY & CO., Toledo, O. SAVES FATHER FROM JAIL.

Son Hires Parent Under Provisions of Wisconsin Parole Law.

La Crosse, Wis., Aug. 13.—Albert

Wickert, of La Crosse, hired his father, aged seventy-nine, from sheriff John A. Weber so the aged man would not have to go to jail for the first time in his life.

Andrew Wickert was charged with shooting a shotgun carelessly and in such a manner that shot entered the skin of Louis Bessecker. Judge Baldwin found him guilty and sentenced him to ten days.

The son furnished a cash bond and hired his father, under the parole law, to work on his farm. The county will collect the old man's wages from the son and turn a portion of the amount over to the father's family.

Saturday, Aug. 15th, all horse shoeing shops will be closed on account of Horse Shoers' National holiday.

MILLWRIGHTS REBUILDING STEEL STACK AT PENNSYLVANIA ROUND HOUSE WHICH WAS PROSTRATED BY WIND JULY 24.

The work of repairs on the boiler plant at the Pennsylvania round house, where a storm on July 24 blew down the stacks and did other damage, has been completed and the men who erected the mammoth steel stacks are now engaged in taking down the scaffold. The accompanying pictures, a reproduction of photographs taken Tuesday, shows the men who did the work standing at the base of the scaffold and as they appeared while at work near its top, placing the sections of the stack together. When this photograph was taken there remained only two of the five-foot sections of pipe to complete the stack, which is 130 feet high. The picture of the stack and the scaffold also represents them as they appeared when the storm prostrated them. The big stack had been taken down and was being rebuilt. The heavy wind carried the scaffold over to the east, taking with it the stack which it surrounded, as well as the smaller stack just a few feet south of it. These stacks caved in the roof, demolished the breeching and the boiler fronts and did other damage, the total of which approximated \$1,000. The accident happened at 3:12 o'clock in the afternoon and early next morning two locomotive boilers were connected with the machinery and the work in the plant went on as usual. About a week ago the small, or No. 3 stack, was erected and the boiler which it serves was put in operation, releasing one of the locomotives, and today the other boilers, Nos. 1 and 2, were put in operation and the remaining locomotive sent to the shops to be fitted for road work.

The men engaged in the work at the round house power plant were four millwrights and two boiler-makers. The personnel of the party, as represented in the group picture taken at the base of the scaffold, is as follows, reading from the left to the right: H. W. Wiedelman, C. F. Mailand, I. E. Koons, while the work just completed is probably the biggest job of the kind they have been called upon to do for some months, the work was not new and they took it up and pushed it along with a rapidity that comes only after a thorough and long experience.

and A. W. Horstmeier, millwrights; G. P. Drewett and R. L. Scherer, boiler-makers. The same men are represented in the picture showing the entire scaffold. Each has been in the employ of the company a number of years and

At the next Saturday. Mr. Altekruze has accepted the office of janitor of Harmony lodge, I. O. O. F., of which he has been a member for over a quarter of a century. He succeeds Lee A. Crowl, who resigns to take a similar position at the postoffice. No one has been appointed to succeed Mr. Altekruze at the planning mills, but that matter will be attended to soon.

WOULDN'T ACCEPT RESIGNATION.

When Charles Romer sent in his resignation as pump-house man near Avery, O., assigning as a reason that the distance from his home to the pump was too great and that he could not secure a house nearer, the company promptly turned him down with the promise to provide a house near his work. At the pump station there was a bit of unused spur siding and on this the company set three box cars and fitted them up for living apartments. One was fitted for a kitchen, one a parlor, and livingroom and the other for sleeping rooms. A strip of fertile ground adjacent to the siding was also donated as a garden patch. Mr. Romer has withdrawn his resignation and says he is satisfied with the accommodations provided by the company. Speaking of it he said: "Our bungalow is home to Mrs. Romer and I. We are alone here except for our dog, our parrot and our phonograph, but we are comfortable and happy and will stay as long as the officials of the road will let us."

PREPARING PRIZE LIST.

The prize committee for the field day of the Electro-Technic club is out this afternoon, calling upon business men and taking donations for the list of prizes for the event at Swinney park one week from next Saturday. There will be in the neighborhood of thirty prizes and most of them have already been donated. Among the list are three from the Fort Wayne Electric works—a large electric fan for domestic use, an electric iron and an electric toaster. The soliciting committee is composed of Joseph Schwartzkopf, G. F. Rogge and M. S. Willson. Following their report at the meeting of the executive committee tonight the list of events will be made up and ready for publication.

ON SHOP INSPECTING TRIP.

D. Frank Crawford, general motive power superintendent of the Pennsylvania, arrived here this morning and for three hours was engaged in inspecting the car shops and round house, making only a brief visit at the machine shop. Supt. T. W. Demarest, of the Northwest system, accompanied Mr. Crawford through the shops and also on his trip over the system, inspecting other shops and round houses. Mr. Crawford left at 10:30 o'clock this morning on the division special train for Crestline, accompanied by Supt. W. M. Wardrop, Trainmaster C. L. Hamilton and other division officials.

OPENS CAMPAIGN NEXT SUNDAY.

Sunday afternoon meetings at the Railroad, Y. M. C. A. will be resumed next Sunday, after a lapse of three or four months. The meeting will be addressed by J. C. M. Baker, ticket receiver of the Pennsylvania, who is greatly interested in Y. M. C. A. work. Clinton Willson and Howard Freeman will each sing solos and there will be other musical features. The arrangement for the musical program is in the hands of M. S. Willson, foreman of the testing room at the Electric works.

WILL RETURN TO OLD HOME.

A telegram from the Swiss consul in Chicago, received last night, summoned Max Flury, of the Pennsylvania shops, to Chicago for a conference. Mr. Flury is a first lieutenant in the Swiss army and he is to return there immediately to take up army service. He sails from New York Sunday morning. Mr. Flury came to America a year ago to study mechanical engineering, and for awhile worked in the Canadian Pacific shops. He came to Fort Wayne eight months ago and has since been doing "special" work.

BUILDING TRADE IS REVIVING.

There are indications of a wholesome revival of the building trade in Fort Wayne. In fact it has already begun. Today the City Suburban company is having assembled the material for three houses. One is on Anthony boulevard and it will cost several thousand dollars. The Fort Wayne Home Builders are also begun getting material on the ground for two dwelling houses on South Webster street, which will be pushed rapidly along.

TRAINMASTERS HAVE MEETING

Pennsylvania Northwest System Men Hold Conference in Fort Wayne.

Committee work was the occasion yesterday for the gathering of the greatest number of Pennsylvania trainmasters ever held in Fort Wayne. At the meeting were Trainmaster E. J. Holahan, of Allegheny, Eastern division; Trainmaster C. B. Reynolds, of the Chicago Terminal division; Trainmaster J. J. Perry, of the Erie and Ashtabula division; Trainmaster C. L. Hamilton, Assistant Trainmaster E. M. Reese and General Yardmaster Henry L. Bley, of Fort Wayne, representing the Western division. The meeting was held in the office of Trainmaster C. L. Hamilton and it was in session nearly the entire day. The business considered pertained to the handling of trains and other matters coming under the trainmasters' official calling.

SIMPLE APPLICATION THAT DISSOLVES BLACKHEADS

No more squeezing and pinching to get rid of those unsightly blemishes, blackheads. There is one simple, safe and sure way to get them out and that is to use this. To do this just get about 10 grains of powdered nelyxin from our drugist—sprinkle a little on a hot sponge—rub briskly over the blackheads for a few seconds—wash the parts with water—blackheads will be gone. Squeezing and pinching out blackheads does more harm than good. You cannot get all the blackheads out this way while the simple application of powdered nelyxin dissolves every particle and leaves the skin and pores perfectly healthy. Are you a sufferer from blackheads? Buy a box of nelyxin today.

kill. Let me know if they will come without requisition papers. Answer quick.

Signed, J. F. McDONOUGH, Chief of Police.

When Capt. Stoll found on one of the prisoners a fine revolver of the standard Colt's pattern, he recalled the robbery in Chicago in which twenty-six of these revolvers were stolen and shipped by express to Cleveland. Captain Stoll thought the revolver carried by the prisoner might have been one of that lot and he wrote to the chief of police of Chicago, giving the number of the gun and a description, but he has not yet received a reply. These developments demonstrate the wisdom of holding over prisoners of this character until an investigation can be made.

MOTOR RIDER INJURED.

Sam Franzie Struck on a Gary Street Crossing by Train.

Samuel Franzie is in the hospital at Gary with a badly bruised head and a fractured arm. Yesterday he failed to heed the warning of an approaching engine, evidently believing he could beat it to the crossing, and he was struck as he was crossing the Pennsylvania tracks at Taft street and with his machine hurled aside. The train was extra No. 9034, with Engineer B. J. Crull at the throttle. Franzie will recover and will probably know better than to take a similar chance with a train hereafter.

FOR FRECKLED, TANNED, RED OR WRINKLED SKIN.

Just beneath that freckled, tanned or reddened complexion there's an exquisitely beautiful skin of youthful tint and delicacy. If you could only bring this complexion to the surface, discarding the discolored one! You can—in the easiest, simplest, most natural manner imaginable. Just get at any drugstore an ounce of mercolized wax, apply nightly like cold cream, removing it mornings with warm water. The wax contains particles of sorbic acid and half-dead surface skin, causing no discomfort whatever. Cutaneous defects like pimples, blotches, liver spots, moth patches, freckles, of course disappear with the wax. It also will accomplish much more in results in so short a time than any other skin treatment. It is the best skin treatment for the face and neck.

Men Arrested For Train Climbing Are a Bad Couple.

The men arrested by Patrolman Lawhead, of the Pennsylvania, on the charge of train climbing and whose trials were continued until Saturday, are believed by Captain H. Stoll to be a very bad pair. They were sailing under false colors, but through some papers found on one of them it develops that their names are Pietro Demo and Cassello Filiois, Italians. One of the papers was a receipt for a money order obtained at Marion, Ohio, calling for \$30 and which was sent to the wife of one of the men in Italy. Captain Stoll immediately telegraphed to Marion and

Lord Kitchener, England's famous general, is now Secretary of War and is directing the British war plans.

FUNERAL NOTICES.

Weil.—Funeral services for Elmer Weil will be held Friday afternoon at 2 o'clock from the residence, 721 West Wayne street, Rabbi Meyer Lovitch officiating. Interment will be made at Lindenwood cemetery. Local members of the Hai Rash fraternity are to act as escort from the residence to the cemetery.

Owing to the fact that the body of the young man was found lying in Whitley county, just across the Allen county line, after the automobile accident, Governor E. H. Kruse has no jurisdiction to return a verdict and the inquest will be conducted by Coroner Strickler, of Whitley county.

Funeral services for Edward Davis, who met death in the Lake Shore railroad yards Wednesday night, will be held Saturday afternoon at 2 o'clock from the residence on Koch street, Rev. T. M. Hill will officiate and the interment will be at Lindenwood.

AMERICAN EGGS TO EUROPE.

Liner New York Will Carry 36,000 Dozens to London.
New York, Aug. 13.—In the refrigerators of the American line New York, when she sails for London tomorrow will be 36,000 dozen eggs, the first American eggs for English markets since the beginning of the European war. These eggs cost here 25 cents a dozen. They were ordered by cable from London and there were calls for more; but the steamer could not accommodate them.

With the supply of eggs from Russia shut off, England had no place to turn to secure stock except in America.

COMMITTEE MEETS HERE.

Transportation Heads of Electric Roads Hold Session.

A meeting of the transportation engineering committee of the American Electric Railway association was held Wednesday afternoon at the Anthony hotel and was attended by eight of the best known electric railway transportation authorities in the country. While the Fort Wayne & Northern Indiana line is not a member of the association, the meeting was held in Fort Wayne because of the central location of this city. The business of the meeting will not be made public until the committee reports at the annual convention of the association to be held in October at Atlantic City.

ROLLER CAUSED TROUBLE.

Fell into Trench and Blocked all of the North and South Car Lines.

A roller that was intended for use in the trench being dug for the west car track on South Main street tumbled in while it was being hauled to a point where it would not interfere with traffic. It took the plunge at Wallace and Calhoun and blocked the south track. Street cars came up from the north and blocked the track so that East Creighton cars could not run and transportation was at a standstill for some time. For those who stamped their feet and said ugly things about street cars, this is the explanation.

LOUISIANA HAS ACCIDENT.

Port Propeller Shaft of American Warship Is Broken.

Washington, Aug. 13.—The battleship Louisiana, en route to Guantanamo from Vera Cruz, has broken her port propeller shaft. The battleship Texas will convey her to the Norfolk navy yard, after which the Texas will go to New York. The battleships Virginia and New Jersey have been ordered to Guantanamo from Vera Cruz, will start by waiting developments in the Dominican republic and Haiti.

GERMAN SOIL NOW ENTIRELY CLEARED OF FRENCH TROOPS

BERLIN, Aug. 13---(Via direct wireless from Nauen, Germany, to the Goldschmidt Wireless Company's station at Tuckerton, N. J.)--German soil is now entirely cleared of French troops.

The German troops took 120 French officers and 1,110 French soldiers prisoners in the fighting at Muelhausen, Alsace. They also captured four French cannon.

Another 1,000 French officers and men were taken prisoners by the Germans in the fight near Longwy.

RUSSIANS TAKE A TOWN BY ASSAULT

St. Petersburg Via London, Aug. 13.--A Russian force has taken the town of Sokal, Austrian Galicia, by assault, inflicting heavy casualties on the Austrian garrison, according to a semi-official announcement.

The Austrian garrison consisted of two infantry battalions, a regiment of lancers and a regiment of Hussars. After dislodging them the Russian cavalry pursued the Austrians across the river Bug and blew up two bridges and a viaduct.

Several houses in Sokal, which is 45 miles northeast of Lemberg, were set on fire and burned to the ground by the Russian troops because civilians had fired from them on the attacking forces.

The Russians captured some military building material, pontoons and telegraph instruments.

FRENCH CLAIMING ALSACE TRIUMPH

London, Aug. 13.--A dispatch from the French foreign minister issued by the French embassy today reiterates that the French troops behind Muelhausen, Alsace "have not retired, but victoriously resisted an entire German army corps."

The minister adds: "The Belgian army and the forts around Liege are intact and are prepared to resist all attacks."

"There has been no important change in Lorraine and there is no truth in the report that the Sixteenth regiment of French infantry was taken prisoner by the Germans at Briey in the department of Meurthe-et-Moselle."

At the end of his communication the French minister says: "France is gratified by the attitude of America."

BELGIANS MAKE IT STRONGER.

Tell of Heavy Losses Inflicted on Germans at Haelen.

Brussels, Via London, Aug. 13.--An official communique issued today confirms

yesterday's successes of the Belgian troops over the Germans at Haelen. It says the German casualties were very heavy, three-fifths of their troops engaged in the encounter being killed or wounded, while the Belgian casualties are reported as relatively small.

WILL ASK INTERVENTION.

Belgium Accuses Germans of Convention Violations.

Brussels, Via Paris, 1:25 p. m., Aug. 13.--It is stated here today that the intervention of the neutral powers is to be asked for by the Belgian foreign minister through their diplomatic representatives in the Belgian capital in reference to alleged repeated violations by the German troops in Belgium of the Geneva and Hague conventions.

M. Davignon, the Belgian foreign minister, has drawn up a long list of cases, declared to be fully attested of the killing of the wounded, the abuse of the white flag, the killing of civilians and the seizure of private and public funds.

WAR REGULARIZED BY BRITISH DECLARATION

London, Aug. 13.--The war of the nations of Europe today became further regularized with the formal declaration of war on Austria-Hungary by Great Britain.

The strength of the British fleet in the Mediterranean is unknown as no movements of warships have been made public since the first outbreak of hostilities. It is known, however, that France has the bulk of her fleet in the Mediterranean so that no apprehension exists here as to the safety of trade routes through that sea now that it seems certain that the German cruisers Goeben and Breslau are out of action.

The official press bureau here describing today the disposition of British cruisers in the Atlantic and elsewhere expressly urges traders of all nations doing business with Great Britain to send their cargoes confidently and boldly to sea in British or neutral ships in all directions except the North Sea where, owing to mines and the probability of naval operations, no guarantee can yet be given although, as announced yesterday, passenger services are again running.

In the field of land operations little change has occurred since yesterday. It must be remembered in considering all the published reports of military operations that these dispatches emanate almost exclusively from the side of the allied French and Belgian armies. Nothing whatever comes from the German and Austrian side relating to military movements or dispositions, and only occasionally a brief item describing the result of past engagements is made public from those quarters. The strict censorship exercised over the whole field makes it difficult to estimate the value of the news received. The struggle for the possession of the Belgian forts surrounding Liege has recommenced and reports of artillery and cavalry engagements are taken as indicating the possible beginning of a great battle on Belgian soil. The bulk of the German forces is believed to be concentrated on the frontier between Liege and the Duchy of Luxembourg. This leads to the conclusion that Germany's frontier facing Russia can be only lightly guarded probably by newly organized armies composed of reservists called to the colors.

WILSON ASKS PRICE PROBE

Wilson Directs Investigation of Recent Advance in Foodstuffs.

WRITES LETTER TO ATTORNEY GENERAL

President Hopes to Prosecute Those Responsible for Rises.

Washington, Aug. 13.--President Wilson today directed Attorney General McReynolds to investigate recent increases in prices of foodstuffs and to take up the question whether any persons responsible can be prosecuted.

The president sent the following letter to the attorney general:

"The rapid and unwarranted increase in the prices of foodstuffs in this country upon the pretext of the conditions existing in Europe is so serious and vital a matter that I take the liberty of calling your attention to it."

"I would be very much obliged if you would advise me whether there is under existing law any action which the department of justice could take, either by way of investigation or legal process, and what federal legislation, if any, would in your judgment be justifiable and warrantable in the circumstances."

"I feel that this is a matter which we cannot let pass by without trying to serve the country. Certainly the country ought to be defended, if possible, against men who would take advantage of such circumstances to increase the price of food and the difficulties of living."

"Faithfully yours,
WOODROW WILSON."

Taken Up as First Task. The president took up the serious question of increasing prices the first thing today and was impressed by the pressure of the situation. He at once decided that legal action should be taken if possible and that if there were no law covering the question new legislation should be passed.

Officials said the president considered that in many cases the increases were wholly unjustified. When he returned from Mrs. Wilson's burial at Rome, Ga., resolutions already had been introduced in the house calling on the department of commerce and justice to report what action they were taking.

Special agents of the department of justice throughout the country and investigators of the department of commerce are available to collect evidence for any action the attorney general may think warranted. The department of labor also has a corps which has become very expert in gathering evidence of the increased cost of living.

ENTERS NOSPITAL TO ENACT TRAGEDY

Kansas City, Mo., Aug. 13.--Mrs. Tillie Rolfe, 29, lay in the room adjoining the operating table at the Swedish hospital here today while nurses hurried about preparing for the operation for appendicitis that was to be performed on her in a few minutes. John Rolfe, 40, her husband, a wealthy farmer of Randolph, Kan., drove up to the hospital in a motor car.

"I want to see my wife," he told the head nurse. An attendant led him back to his wife's room.

"Oh, John, why don't you quit drinking?" Mrs. Rolfe said as he entered. Then the door closed.

Five minutes later five shots were heard. Physicians and nurses ran into the room and found that three bullets had entered Mrs. Rolfe's body. Rolfe lay on the floor, a revolver grasped in his hand and two wounds in his head. He had shot his wife and himself. It is said both will die.

AMORY MURDER STILL MYSTERY

Chicago Police Baffled by Case of Strangled Chicago Man.

Chicago, Aug. 13.--The mysterious murder of E. P. Amory, patent attorney and secretary of the Northwestern Railway association, who was found choked and beaten to death in his office yesterday was still unsolved when the police took up the investigation today. Amory was killed yesterday morning and the body left in the office of the association. His woman stenographer vainly tried to get in and at length went home, leaving a note pushed under the door. The body was discovered by Allen M. Thompson, Amory's clerk, who was having a day off, he said, but looked in at the office late in the afternoon. The police held Thompson to investigate his story.

Amory was killed after a desperate struggle. His clothing was partly torn off. He had three cuts on his head; bruises on his throat and the whole office was spattered with blood. Thompson had several slight scratches on his neck, which he said he got while playing with a dog. One lens of his eyeglasses was broken. Thumb prints found on chairs in Amory's office were to be compared with Thompson's today. Thompson declared that he had been given a day off to go to a dentist. The association of which Amory was secretary was formed to protect western railways against infringement of patents and the police thought the murder might have been committed by some person with a fancied injury in connection with patent litigation. Amory's desk was open and its contents scattered.

DR. FAUVE FEARS SAFETY OF SISTER

Countess de Machado Left Town Houses for Portugal.

Dr. and Mrs. A. E. Fauve, of West Wayne street, are greatly concerned about their sister the Countess de Machado, from whom they have not heard for some time. In her last letter the Countess expressed her intention of closing her town houses in Brussels, Belgium, and Paris, to join her husband at Lisbon. Since that time however, the war situation has involved Portugal and they have received no news from her.

Press dispatches from Genoa, Italy, say that the Principe di Udine, an Italian steamship, was due to sail from that port Wednesday and Fort Wayne people who have relatives and friends abroad, are confident that some of the local people who succeeded in leaving England and Germany for Italy will be aboard the vessel, bound for New York. It is known that Mr. and Mrs. George Bailie reached Genoa and in a letter to Mrs. Bailie's mother, Mrs. A. J. Nickell, it was announced that they had intended to sail from Italy August 1, but this is believed to be the first opportunity offered Americans to leave for New York. It is also believed that the Davison party, of this city, landed safely in Italy after fleeing by river and rail from Switzerland. The dispatch reads as follows:

"Genoa, Tuesday.--The Principe di Udine, an Italian steamship, will steam from this port for New York tomorrow. She is crowded with Americans."

"The British government has guaranteed the safe passage of the straits of Gibraltar."

BULLETIN.

Washington, Aug. 13.--J. P. Morgan & Co. have inquired of the state department what the United States government's attitude would be toward a French war loan of several hundred millions to be floated in this country.

It is also understood that certain financial houses have approached the government with a view to ascertaining its attitude toward an Austrian loan for an unnamed amount.

MEXICO AGAIN IN LIMELIGHT

Clash Between Carranza and Villa is Becoming More Acute.

AMMUNITION FOR LATTER IS HALTED

Villa's New Plans Win the Support of Defeated Federals.

Washington, Aug. 13.--Reports of the increasing friction between Carranza and Villa, constitutionalist leaders in Mexico, that reached a semi-climax when the "first chief" demanded that ammunition consigned to Villa be held up at Tampico, brought a long dormant phase of the Mexican situation to the front today. Carranza's sudden order to halt the ammunition was the first indication he had given of interference with the reorganization of Villa's army in Chihuahua.

While Carranza's action was not explained in official notices to the Washington government yet Villa's reasons for his displeasure with Carranza's attitude have been outlined by persons in Washington, who have been in touch with him. Villa wants Carranza to retire as "first chief." He insists that a civil instead of a military government be established to conduct elections throughout the southern republic, that land reforms be executed in conformity with the Mexican constitution; that the federal army be dissolved, but that deserving officers and men be admitted to the new army, and that amnesty be given to all political offenders except those involved in the anti-Madero plot. Villa also objects to military chiefs holding office as provisional governors and contends a military chief should not be provisional president. He is military governor of Chihuahua, and as such, it is said, is ready to retire.

Villa's present plans, according to his friends, have the sympathy of the federal army and particularly those officers now serving under the Carranza government. While the federal army is now evacuating Mexico City to permit peaceful occupation by the constitutionalists, yet the Carranza war minister has intimated to Carranza that if guarantees of safety are not given a counter revolution will be started and efforts made to join with Villa.

BRIEFLY TOLD BY BULLETINS

Winnipeg, Aug. 13.--Four infantry regiments of Winnipeg, 2,000 strong, were called to mobilize at Quebec by an order received from Ottawa today. They leave Monday night. The local battery will accompany the regiments.

Paris, Aug. 13.--The official declaration of war by France on Austria-Hungary was made public here today.

London, Aug. 13.--2:15 p. m.--Neither the British foreign office nor the Turkish embassy has received any dispatch confirming the reported purchase by Turkey of the German cruisers Goeben and Breslau.

Stockholm, Sweden, Aug. 13.--Two German warships were observed off Landort, an island in the Baltic, yesterday and today. Gotland reports say that German war vessels are seen frequently cruising in that vicinity.

Advices from Finland indicate that the Russian fleet is still in control of the French gulfs. A party of Britishers, suspected of espionage, were arrested yesterday.

Washington, Aug. 13.--It has been decided to impose the censorship on French and English cables as is now imposed upon German owned wireless stations at Saville, L. L. and Tuckerton, N. J.

FIRST UNCENSORED DISPATCH THROUGH

The first dispatch direct from Berlin uncensored by the authorities of the nations at war with Germany was received today by the Associated Press through the medium of the Goldschmidt Wireless company's station at Tuckerton, N. J.

The message contained the important information that during the fighting at Muelhausen considerably over 1,000 French officers and soldiers were taken prisoners by the Germans who also captured four cannon, while in another fight with the French on the border of Lorraine, further to the north, the Germans also took 1,000 prisoners. The dispatch adds that German soil had been cleared of French troops.

Developments in the war zone which appear chiefly confined to Belgian territory are made vague owing to the strict censorship over news relating to military movements.

Positions occupied by the main French, Belgian and British forces are not permitted to be disclosed even approximately, so that their plan of campaign cannot be assumed.

As to the German forces, indications from various sources point to the concentration of the main body with its right wing in Belgium and its left wing in the Duchy of Luxembourg. The German staff is said to have gathered 26 army corps along the eastern frontier facing Belgium and France. Many of these troops probably are stationed in the great fortresses in Alsace-Lorraine and along the Rhine. One dispatch asserts the defense of Germany's Russian frontier has been left to armies made up of reserves. Although all these are trained soldiers it would seem natural to leave as a nucleus for their organization a considerable force from the active army. The dispositions and strength of the French invaders in Alsace, where they are said to hold a long line within the German border, are kept rigidly secret.

On the seas, the reported safe arrival in the Dardanelles of the German cruisers Goeben and Breslau, has led to rumors of their probable dismantling until the end of the war.

In the North Atlantic, although Rear Admiral Craddock has declared it "dear of German cruisers as far south as Trinidad" the French liner Rochambeau, which was to leave yesterday with French reservists was held in New York by orders from France.

In the North Sea, which the British government says may be strewn with mines, the main squadrons of British battleships are still out but their position is not publicly known. Neither is the location of the main German fleet.

Reports from Dover at the eastern entrance of the English channel, say heavy cannonading lasting an hour was heard this morning coming from the direction of the North Sea.

The Austro-Hungarian fleet, owing to the declaration of war by Great Britain, together with that of Germany, is said to be in the Adriatic where it was recently occupied in blockading the Montenegrin coast.

The British squadron in the Mediterranean is strong and has the support there of almost the entire French fleet.

Belgian reports assert that a strong force of German cavalry, supported by infantry and artillery, after severe fighting around Haelen, was thrown back toward Liege by a division of Belgian cavalry with infantry and artillery. The German killed and wounded are said to have numbered three-fifths of the five thousand men engaged, while those of the Belgians are reported relatively light.

The French foreign minister denies a German report of the capture of a French infantry regiment at Briey, Meurthe-et-Moselle.

Swiss reports assert the Franco-Germany battle before Muelhausen to have been so severe that the neighboring hospital accommodations proved absolutely inadequate.

Many Germans in Berlin have placed their homes at the disposal of stranded Americans.

STEAMER CHASED BY UNKNOWN SHIP

Tokio, Aug. 13.--Passengers arriving today on the British steamer Nile from Honolulu, nine hours ahead of the schedule, told of being chased by unknown ships. Soon after leaving Honolulu on August 8 the passengers were suddenly ordered below decks. That evening the ship was plunged in darkness and sped forward under forced draught. The ship finally outdistanced the two pursuers, apparently war craft.

The American embassy has published a denial of reports that Ambassador George W. Guthrie had inquired what was the Japanese program in connection with the European war or presented any communication from Washington on the subject.

A mass of false dispatches are pouring into Tokio from many points in the Orient, designed seemingly to create the impression that the United States is intervening in the war situation.

CAPTURE OF GERMAN STEAMER CONFIRMED

New York, Aug. 13.--News of the taking of the German tank steamer Leda, a prize probably worth a quarter of a million dollars, by a crew from the British cruiser Suffolk, and of the arrest of upwards of one hundred German reservists in Bermuda as prisoners of war, was confirmed by Captain R. L. Daniels, of the Royal Mail steam packet, Caribbean, which arrived this noon from Bermuda.

Similar confirmation was brought by the Bermudian of the Quebec Steamship company.

"On the second day out of our southward voyage last week," said Captain Daniels, "we were chased by an unknown cruiser, until the officers of the warship apparently were satisfied with our identity. On our way north we saw no warships and had no wireless signals except the report of Sir Admiral Christopher Craddock, of the British cruiser Suffolk, that all was safe for

shipping in the west Atlantic. This was a relief, for the weather was hazy all the way north."

"Marital law is in full force in Bermuda now, none of the crews of steamers is allowed ashore. The streets are patrolled by soldiers from the British garrison, and the volunteers have been called out. With the exception of the activities at the fortifications and the seizure of all German reservists there is no great excitement, however. The authorities have taken upwards of 100 of these reservists and made them prisoners on Prince's island in the harbor."

"The Leda, a big German tank steamer, chartered to the Standard Oil company, was brought into port at about daylight Saturday morning in charge of a prize crew from the Suffolk. The Leda was empty. She had a crew of probably thirty men, who are held prisoners aboard. An admiralty prize court will be convened as a formality and the Leda will be technically made a prize of war."

STORY AS TOLD BY BULLETINS

Paris, Aug. 13.—It is reported here that Brazil has demanded an explanation from Germany on the report from the French consul at Stuttgart that Bernardo de Campos has been assaulted and robbed by German soldiers. The Brazilian, who is blind, was formerly president of the state of Sao Paulo.

Paris, Aug. 13.—It is declared here that the alleged purchase by Turkey of the German cruisers Goeben and Breslau as announced at Constantinople probably will be the subject of a demand for explanations on the part of France and her allies.

Brussels, Via Paris, Aug. 13.—Peasants report that the Germans are waging a war of extermination. They allege that the troops are firing on priests and are killing and wounding people indiscriminately. Whole villages, according to their story, are being wiped out by the invaders.

Paris, Aug. 13.—A Rome dispatch declares that the departure of the Austro-Hungarian ambassador to Italy, Kajetan Mery de Kapos-Mera, stated to be for reasons of health, was really due to the impossible situation resulting from the failure of his efforts to obtain Italian support for Austria and Germany.

New York, Aug. 13.—The Belgian consulate today made public the following cablegram from the minister of war at Brussels:

"The port of Antwerp is open and the estuaries of the river Scheldt are open to commercial navigation. During the day there will be Dutch pilots."

Paris, Via London, Aug. 13.—Ordinary traffic on the greater part of the French railways, with the exception of the eastern lines, will be resumed soon, it is announced. It is claimed in a semi-official statement that the French artillery has proven far superior to that of the Germans. The latter's heavy shells show little effectiveness, it is said.

Vancouver, B. C., Aug. 13.—The Canadian cruiser Rainbow, reached Victoria at 6 a. m. today, conveying the British man-of-war, Spearwater. The Algerine is expected in later today.

Dover, Via London, Aug. 13.—Heavy cannonading was heard here early this morning, the reports coming from the northeast. The firing lasted an hour.

Beaufort, N. C., Aug. 13.—A German warship has been cruising off the North Carolina coast about forty miles to sea, for the last three days, according to the commander of the United States fish commission steamer, Fish Hawk, which has been operating off Beaufort bar.

BELGIAN AND GERMAN HOSTS IN DESPERATE ALL-DAY ENGAGEMENT

BRUSSELS, VIA LONDON, AUG. 13.—The fighting yesterday between the Belgian and German armies in the vicinity of Diest lasted the entire day and constituted the first considerable battle of the war.

It will be known as the battle of Haelen. Shells are still falling at half past seven in the evening on the roads around Diest.

The battle centered around Haelen in the Belgian province of Limbourg extending to Diest in the north of the province of Brabant after passing round Zeelhem.

At 7 o'clock last evening all the country between the three towns mentioned had been cleared of German troops except the dead and wounded who were thickly strewn about the fire zone.

Upwards of 200 dead German soldiers were counted in a space of fifty yards square.

A church, a brewery and some houses in Haelen were set afire and two bridges over the Demer were destroyed by Belgian engineers.

Great quantities of booty were collected on the battlefield and this has been stacked in front of the town hall in Diest. Many horses were captured.

The strength of the German column was about 5,000 men.

SOLD WEDDING RING FOR FOOD.

Mother of Six Moves Judge to Pardon Convicted Son.

Elizabeth, N. J., Aug. 13.—When Mrs. James Stern told how she had sold her wedding ring to buy food for herself and six children, Judge James Connolly immediately pardoned her son Henry, who was convicted two months ago on a charge of receiving stolen wire.

Mrs. Stern said she was dependent upon her son and had been in extreme want since his imprisonment. When she appeared in court to beg mercy for her son, she wore shoes borrowed from a neighbor.

WASN'T DROWNING AT ALL.

Cincinnati, O., Aug. 13.—A loud shout for "help" startled the bathers in the Chester park lake and all looked in the direction of an overturned boat among the most turbulent of the machine-made billows. They could see a person floundering near the boat. Those closest to the scene remembered having seen a modestly dressed "country" chap in the boat but a few minutes before. From all directions swimmers started for the scene.

But past them shot a small boat with but a single occupant. The boat was labeled in white letters, "Life Guard 4." Close to the apparently drowning youth the guard threw out a lifebelt, and a moment later jumped into the water after it, grabbed the young fellow by his clothes and towed him until Capt. Jean Jones of the life guards and other help arrived. Then, to the amazement of Life Guard No. 4, the victim had been towing suddenly straightened out, kicked off his clothes, disclosing a bathing suit underneath, and burst in to hearty laughter, in which Jones joined him.

PUBLIC BUILDINGS PACKED BY WOUNDED

London, Aug. 13.—A dispatch to the Exchange Telegraph company from Basel, Switzerland, says:

"Following a terrible battle at Muelhausen the hospital facilities proved absolutely inadequate to care for the almost inestimable number of wounded.

"Not only are all the hospitals filled, but schools, churches and hotels are occupied to their capacity. Even then it has been found necessary to charter special trains to convey the wounded to Mulheim and St. Ludwig and other towns.

"The latest estimates place the German losses at from eight to ten thousand."

"Good work, old boy," said the victim. "You'll do," said Capt. Jones, slapping the life guard on the shoulder. That is how Ralph Weatherby, new life guard at Chester was tried out Sunday.

GREAT BRITAIN MAKES FORMAL DECLARATION AGAINST A NEW FOE

LONDON, AUG. 13.—It is officially announced that a state of war has existed between Great Britain and Austria-Hungary since midnight.

The British foreign office later issued the following statement: "Diplomatic relations between France and Austria-Hungary being broken off, the French government requested his majesty's government to communicate to the Austro-Hungarian ambassador in London the following declaration:

"Having declared war on Serbia and thus taken the initiative in hostilities in Europe, the Austro-Hungarian government has placed itself without any provocation from France in a state of war with France and after Germany had successfully declared war against Russia and France, Austro-Hungary has interfered in the conflict by declaring war on Russia who already was fighting on the side of France. According to information worthy of belief Austria-Hungary has sent troops over the German frontier in such a manner as to constitute a direct menace against France. In face of these facts the French government finds itself obliged to declare to the Austro-Hungarian government that it will take all measures permitted to it to reply to these acts and menaces."

"In communicating this declaration, accordingly, to the Austro-Hungarian ambassador in London, his Britannic majesty's government has declared to His Excellency that the rupture with France having been brought about in this way, it feels itself obliged to announce that a state of war exists between Great Britain and Austria-Hungary as from midnight."

APPLY TO AMERICAN CONSUL. As soon as the declaration of war by England on Austria-Hungary became publicly known a large number of Austrians and Hungarians resident in London, who were liable to be called for military service, applied to Robert P. Skinner, the American consul general for enrollment. The clerks of the consulate general at once began stamping the men's military books and this will be regarded by the Austrian authorities as evidence that the holders were ready to perform their duty.

In accordance with previous instructions received from Secretary of State Bryan, Consul General Skinner has notified the American consuls throughout the British Isles to take over the Austrian consulates.

Ambassador Walter Hines Page was ready to assume charge of the Austro-Hungarian embassy here as soon as requested to do so. The number of Austrians and Hungarians in the British Isles is not known, but it is expected they will add considerably to the problem of the relief committees.

MANY TOURISTS HARD PRESSED FOR FUNDS

London, Aug. 13.—The fashionable season in Switzerland was at its height when war was declared, and as a result more than 10,000 English and American tourists are stranded in that country. The British minister at Bern has issued the following proclamation: "During mobilization travel through France is impossible and tourists are recommended to remain where they are until it is possible to arrange for transit."

Many tourists are hard pressed for the bare necessities of life. Some are trying to borrow small amounts on their letters of credit, these being often for large sums. The British minister has asked the French government to take steps to provide transportation for these tour-land-American line.

CHURCH OF GOD ELECTS OFFICERS

Rev. Charles Manchester is Asked to Remain Another Year.

Officers for the ensuing year were elected and Rev. Charles Manchester, present pastor, was asked to remain another year at the annual meeting of the congregation of the Church of God held Wednesday evening at 8 o'clock in the church hall. The annual session was presided by a half hour of prayer service.

The secretary and treasurer submitted their reports, which showed that the church was in good standing. The treasurer's report was submitted brought out the fact that all bills were paid when due and also that the pastor had been paid up to date. The secretary's report also showed that \$300 had been added to the new church fund during the past year.

Much enthusiasm and interest was shown in the meeting, which was very well attended, there being over thirty eligible voting members present besides many others of the congregation.

GIVES STIRRING ADDRESS.

Rev. G. R. Schroeder Conducts Evangelistic Services at Missionary Church.

Rev. G. R. Schroeder, of Berne, delivered a very stirring and interesting address at the evangelistic meeting held Wednesday evening at the convention of the delegates from the various Missionary churches of this district being held in a tent on the grounds of the Bible Training school. He spoke from the text, 2 Cor. 5:14-15.

He said that God's original plan and purpose for man in this life was to live for Him and Him only. Then he further showed how man because of his selfishness has failed God in all ages. He stated that it was an utter impossibility to live true to Christ without having an experimental knowledge of the regenerating power of Him.

The program for Friday has been arranged and the public is invited to attend these meetings. Following is the program and time:

10:00—Address by Rev. Henry Roth, of Grubill.

11:00—Address by Rev. H. C. Thies, of Pandora.

Afternoon Session.

1:30—Praise service, led by Rev. E. Kuhle, of Detroit.

2:00—Bible address, Rev. S. D. Burkey, of Peoria.

3:00—Missionary addresses, Mrs. P. L. Eichler and Rev. H. Vandyrke, of China.

Evening Session.

7:00—Song service, led by C. A. Gerber, of Fort Wayne.

7:30—Prayer and Praise service, led by Rev. A. D. Wolf, of Lima.

8:30—Evangelistic address, Rev. A. M. Clanser, of Cleveland.

There will be a meeting for the children Friday afternoon at 2 o'clock.

WILL LECTURE IN THIS CITY.

Oliver W. Stewart of Chicago to Speak at Westminster Church August 29.

Oliver W. Stewart of Chicago, representing the Flying Squadron of America, will be in this city and speak at the Westminster Presbyterian church August 29 at 8 p. m. He will place before the public the plans and purposes of this greatest move in the anti-liquor war.

The admission is free and no one should miss the opportunity of hearing him as it has been said that he is the only speaker who could get cheers from all parties and that he is almost perfect in construction, style, diction and delivery. Mailing cards have been sent to all people interested in this work announcing his coming as the red letter event of the month.

Advisory Board Meets.

Members of the advisory board of the Fort Wayne Diocesan Aid society met in regular session Wednesday at the St. Paul's Catholic church. The auditing of the books for the society and the discussing of the work in general took up the entire day. Father Kroll, of this city, who is a member of the board, is engaged in the work of raising funds for the extension work of the society.

The Message as the Correspondent wrote it

To the Newspapers of the World

The true story of the battle is one of honor and disheartenment for our country. Every heart now realizes that this terrible conflict will take its toll of hundreds of thousands of our countrymen before the war reaches its bloody end. Hundreds of the dead and wounded are now reaching this city, and everywhere the despairing cry of the broken-hearted is heard. Over the national palace the blow to our arms has cast a sickening pall of gloom.

The enemy seemed to know our weakest points. These he attacked with merciless fury, and our troops, though fighting gallantly, were unable to meet his deadly flood of fire. For hours, however, it stood like a wall of stone, until, finally, its broken ranks melted away and the remnant faded into the cloud of smoke of the oncoming victorious army. The forts were soon in the hands of the enemy, and his colors now float over our fair land.

CANDIDATES TO BE ON PROGRAM

Allen County Democrats Are Busy With Organization Problems.

Progressive and republican congressional candidates will launch their campaigns outside of Allen county Friday, when they appear at Wolf Lake as speakers for the annual union day ceremonies and it is said that a large number of leaders of both parties in Allen county plan to attend the celebration for the purpose of giving their respective candidates a boost. Charles R. Lane, of this city, republican congressional candidate, will be accompanied by District Chairman Allen J. Vesey and W. D. Widney, of St. Joe, Ind., progressive candidate for congress, will also have several of his campaign leaders with him.

The republicans of Whitley county organized by townships last week and everything is in readiness for the county convention to be held September 3. Local republicans say the Whitley county committee has an excellent ticket for nomination.

Democrats Busy.

The democrats of Allen county are busy arranging for the many organiza-

tion details expected to be completed by the end of this month, in time to begin the active speaking campaign not later than the first of September, and from that time on officials of the central committee, as well as the county candidates, expect to devote most of their time to matters of registration. Congressman Cyrus Cline, candidate for re-election, will also be in the district to participate actively in the campaign.

EXPECT MANY TO ATTEND.

Shrine Picnic Will Be Held at Robison Park Friday Afternoon and Evening.

The committee on arrangements for the Shrine picnic to be given Friday, August 14, at Robison park, consisting of Guy Mahurin, Edgar Kilbourne, Harry Jones, J. I. Toy and Charles Gump, expects 3,000 people to attend this fifth annual affair. Arrangements have almost been completed and a good time is assured.

Special cars will leave the interurban station at 2 o'clock in the afternoon, headed by Electra, which will carry the Shrine band, which will play oriental music while passing through the streets. The band will also play at the park in the evening. Decorations consisting of American flags and Shrine emblems will adorn the park. Dinner will be served at 6:30 o'clock, which will be followed by dancing.

The program of athletic events as arranged by the committee for the afternoon is as follows:

Arab Patrol vs. Nomad Band—Railroad ball, base ball game, relay race, tug of war; Shriner's free for all—Sack race, shoe race, 50-yard dash for fat

men, 50-yard dash for lean men, nail driving contest; boys' twelve years and under—Rooster race, 50-yard dash; girls, twelve years and under—Rooster race, 50-yard dash; young men—100-yard dash, sack race; young ladies—50-yard dash, sack race, hat trimming contest, potato race; married ladies—Peanut race, suffrage speech, nail driving contest, egg race.

GERMANS FILE PROTEST.

Object to Cartoons and Comment in American Dailies.

At a meeting of the Turnverein Vorwarts Wednesday evening, resolutions were adopted protesting newspaper cartoons and press comment, which they say is the result of highly colored war reports sent out from cities in nations that are at present Germany's enemies, tending to make the American public believe that Germany is responsible for the present European situation. The resolution follows:

"The Vorwarts Turnverein takes notice of the fact that certain American newspapers do not treat the present European situation in an impartial manner as might be expected, and by the publication of cartoons of an offensive nature encourage the prejudice against the German nation. The Germans residing in the United States do not expect to be given the preference, but they do expect fair play, and condemn the publication especially of certain cartoons which only serve to prejudice the people against a class of American citizens which have always distinguished themselves by good citizenship and devotion to their adopted fatherland."

LAMBROOK BLEW UP DIVORCE SUIT

Admitted He Had Been Hanging Around Wife Since Filing Case.

Joseph Lambrook filed a suit for divorce from Lillian Lambrook and the suit came to trial before Judge W. C. Ryan in the superior court Thursday. Joseph was there, as of course; but so was Lillian and full of fight. The testimony got just far enough along to establish that since filing his complaint, Lambrook had been visiting his wife—how many times he could not say—and that their marital relations had not in fact ceased. Judge Ryan promptly found for the defendant and Mr. Lambrook still has a wife.

Names Another Woman.

In a divorce complaint filed in the superior court by Hattie Mills against Samuel Mills, the plaintiff names Mrs. Bert Kinsey as co-defendant and further charges that her husband has been in the habit of associating with lewd and unchaste women, corresponded with them, took them to his home and on trips and deported himself improperly with them in the presence of his children. She says he showed no regard for her contentment and happiness and by his conduct has caused her much worry and discomfort. She wants the custody of six children and provision for their support. The Eckert Packing company, for the defendant is a traveling salesman, is enjoined from paying him his salary.

Husband Has Left Her.

Laura M. Dickerson sues in the superior court for divorce from Orin Dickerson, to whom she was married in 1906, in 1906. They have just separated. She says he has called her vile names, did not support her properly, left her days and weeks at a time and is now out of the state. She says he told her he never would come back to live with her. She asks that her maiden name, Laura M. Copenhagen, be restored.

Notes of the Courts.

In the superior court Ferdinand Zeppering has brought suit against Charles Zeppering and several others to quiet title to real estate.

A petition has been filed in the circuit court praying for the appointment of a guardian for Mary Wells, who recently was adjudged of unsound mind.

BIG SUM FOR IMPROVED ROADS.

According to figures just compiled by Deputies John Goggin and Leonard Butler there is now in the hands of County Treasurer J. Herman Butler the sum of \$300,760.51, the proceeds of the sale of bonds for the construction of improved highways. The money covers items of roads, most of which are now under way.

RUSH REPAIRS ON CALHOUN STREET

South Bound Cars Are Now Operating Over New Tracks.

Southbound street cars on Calhoun street are being operated over the new track between Wallace street and Creighton avenue today for the first time and in a way the congestion on this portion of the city car system has been relieved. It occupied just a trifle more than one month's time to complete the track. General Manager S. W. Greenland states that the east track will be laid in more rapid time and excavations for the track foundations were started Wednesday night. To rush the work a night shift is being worked. It is hoped to complete the entire work on Calhoun between Wallace and Creighton in less than four weeks.

All excavating has been completed for track requiring on Calhoun street from Pontiac street to Willwood avenue and a large force of workmen is now laying the new rails there. It is thought that the work will be finished in two weeks.

BULLETIN.

Brussels, Via London, Aug. 13.—6:55 p. m.—According to Le Soir the German casualties during yesterday's fighting in the vicinity of Haelen totalled about 2,000, equally divided between killed and wounded. The Belgian casualties are not precisely known, but are declared to comprise only a few dead and many wounded.

BULLETIN.

Paris, Aug. 13.—3:10 p. m.—An official report of the fighting between the French and Germans in the vicinity of Pont-A-Mousson, north of Nancy, issued today, says:

"The fighting which started on August 12 was continued on August 13 under thrilling conditions for the French."

BULLETIN.

Brussels, Via London, Aug. 13.—4:20 p. m.—A Belgian official communication today says that a German force proceeding in the direction of Rebecq to the north of Namur was attacked and repulsed this morning by the Belgian troops. The Germans suffered severe casualties. The Belgians captured a number of machine guns mounted on motor cars.

On account of the absence from the city of the president and vice president, there will be no meeting of the Ladies of the S. W. Strick circle, G. A. R., Friday night.

THE SENTINEL'S DAILY SCRIPTURE READING.

John 4:43-54.

- 43 Now after two days he departed thence, and went into Galilee.
- 44 For Jesus himself testified, that a prophet hath no honour in his own country.
- 45 Then when he was come into Galilee, the Galileans received him, having seen all the things that he did at Jerusalem at the feast: for they also went unto the feast.
- 46 So Jesus came again into Cana of Galilee, where he made the water wine. And there was a certain nobleman, whose son was sick at Capernaum.
- 47 When he heard that Jesus was come out of Judea into Galilee, he went unto him, and besought him that he would come down, and heal his son: for he was at the point of death.
- 48 Then said Jesus unto him, Except ye see signs and wonders, ye will not believe.
- 49 The nobleman saith unto him, Sir, come down ere my child die.
- 50 Jesus saith unto him, Go thy way; thy son liveth. And the man believed the word that Jesus had spoken unto him, and he went his way.
- 51 And as he was now going down, his servants met him, and told him, saying, Thy son liveth.
- 52 Then inquired he of them the hour when he began to amend. And they said unto him, Yesterday at the seventh hour the fever left him.
- 53 So the father knew that it was at the same hour, in the which Jesus said unto him, Thy son liveth: and himself believed, and his whole house.
- 54 This is again the second miracle that Jesus did, when he was come out of Judea into Galilee.

More Competition in Paving

Fort Wayne property-owners are to be congratulated upon the prospect for more active competition for the street paving work which is soon to be let. Beyond question a little more lively scramble among the contractors for work of this character will not only tend to secure for the property owner a favorable shade in prices, but will enable the work to be done more expeditiously. Both conditions are highly desirable from the standpoint of the man who is compelled to pay and the public which uses the streets.

Frequently in recent years, with but two or three contracting firms engaged in doing street improving work in Fort Wayne, it has been found that each was so overloaded with work that there was aggravating delay in proceeding with street work for which there was pressing demand. However urgent the necessity and however anxious were property-owners for new paving, it has been possible to get through with only a certain amount of the work in any given season. The result has often been disappointing. With all the contractors in the field well provided with work, and no other bidders in sight, the public was simply compelled to wait. That, in some cases at least, has meant final abandonment of improvement projects once well under way. The people will be infinitely better served if the competition in paving work is lively enough to guarantee the lowest cost consistent with good work, and numerous enough to get the work out of the way promptly after contracts have once been awarded.

A better understanding of the handicaps under which European war news is gathered during existing conditions will very promptly acquit American newspapers of the charge of anti-German tendencies which have been lodged because of the fact that practically all the news now available is coming through English and French sources. The cutting of the cables to Germany has rendered absolutely helpless the scores of Associated Press correspondents and other newspaper writers in German territory. Unquestionably, too, they are fuming and fretting in an anxiety to give American readers full and unbiased reports of the German operations that greatly overtops American anxiety to receive them.

Disease Prevention day, October 2, observance of which is now being urged upon Fort Wayne, is too important an event to be allowed to pass without definite local recognition. The years are proving beyond question the value of educational campaigns against disease, for, after all, no medicine is quite so good as preventive precautions that will point the way of escape from disease. By all means let Fort Wayne observe Disease Prevention day in appropriate fashion.

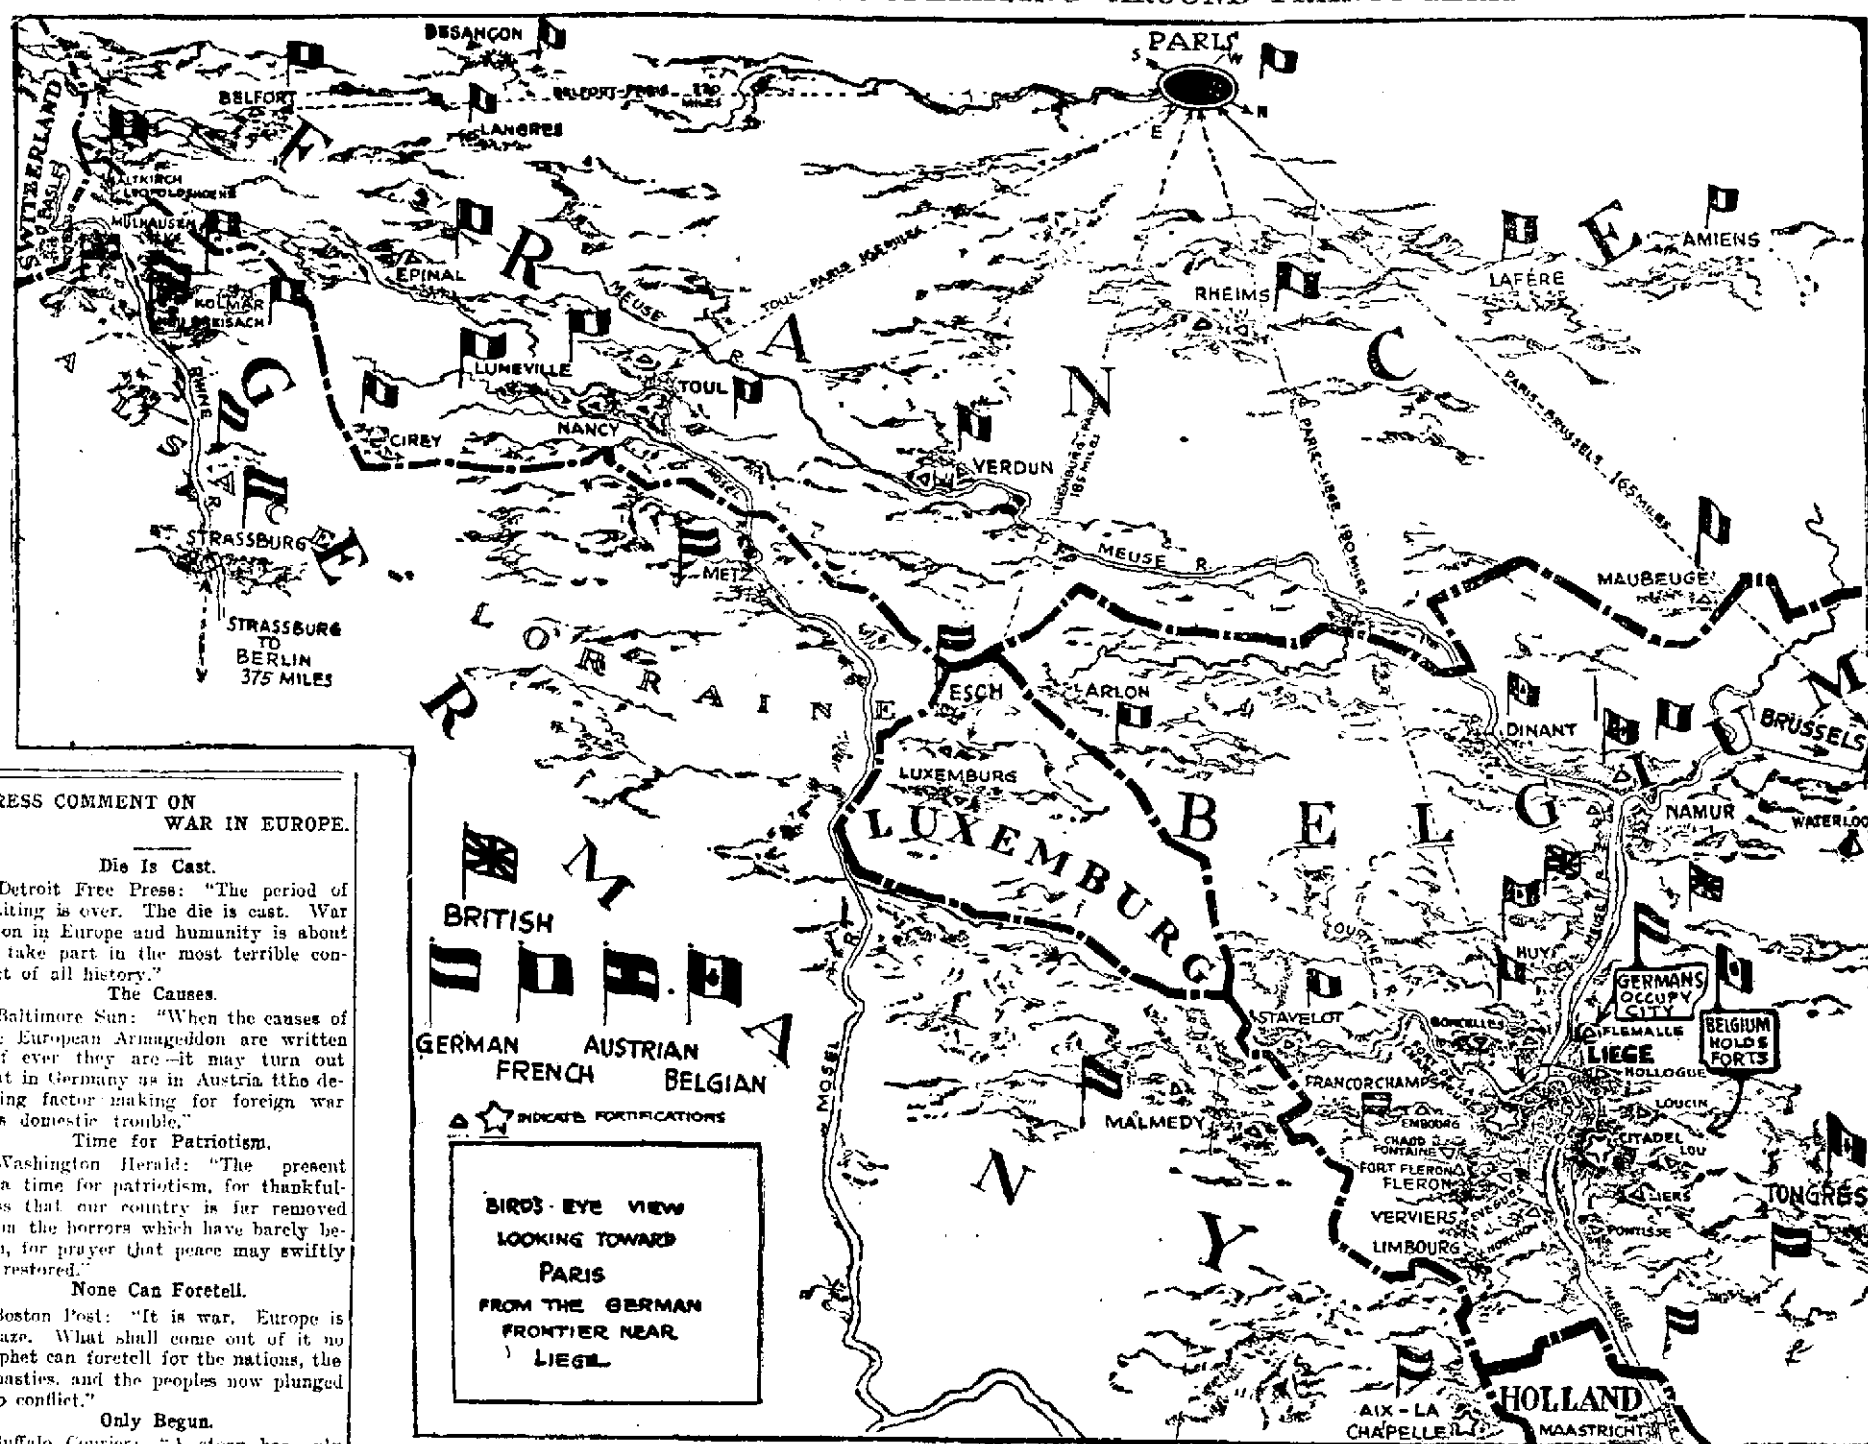

The decision of the federal court in the long-drawn-out action against the International Harvester company, in which the latter is declared to be a monopoly and is ordered to dissolve, hardly comes as a surprise in view of the rulings of the federal courts in the case of other corporations of similar character. The promptness with which it is announced that an appeal will be taken by the company indicates, also, that the concern itself was somewhat prepared for the shock.

"Absolutely unwarranted" is the term used by the department of commerce in describing the recent amazing advance in the price of foodstuffs in the United States. The man who has the prices to pay will subscribe to the opinion that in its selection of descriptive phrases the department of commerce exercises a restraint that has seldom been approached by the word-painters of any age.

Aren't those Ohio republicans the unkind things? Just look what has happened to your uncle Joseph Benson Foraker in his effort to "come back" after sundry weary years of watchful waiting!

Now New Hampshire is hearing reports of heavy firing off her coast. Somehow, the returns from Boston appear to be slow in coming in.

PRESS COMMENT ON WAR IN EUROPE.

Die Is Cast.

Detroit Free Press: "The period of waiting is over. The die is cast. War is on in Europe and humanity is about to take part in the most terrible conflict of all history."

The Causes.

Baltimore Sun: "When the causes of the European Armageddon are written—if ever they are—it may turn out that in Germany as in Austria the deciding factor making for foreign war was domestic trouble."

Time for Patriotism.

Washington Herald: "The present is a time for patriotism, for thankfulness that our country is far removed from the horrors which have barely begun, for prayer that peace may swiftly be restored."

None Can Foretell.

Boston Post: "It is war. Europe is ablaze. What shall come out of it no prophet can foretell for the nations, the dynasties, and the peoples now plunged into conflict."

Only Begun.

Buffalo Courier: "A story has only begun with the reckless aggression of Austria-Hungary and the line up of the powers of the rival alliances. Red chapters doubtless will be written."

Declaration of War.

Boston Herald: "The German occupation of the little independent State of Luxembourg was the declaration to the world that there is nothing in the name of neutrality when big nations fly at each other's throats."

Man-made Calamity.

Buffalo Enquirer: "The greatest calamity in the history of the world is at hand. What sickens the thoughtful is that it is man-made calamity."

Appeal to Reason.

Boston Globe: "This is the time if ever, for the great financiers and business men of the world; for the labor interests; the churches, the pacifists generally and the nations that are not involved to make an appeal to reason."

TO GUARD AGAINST TYPHOID.

(Indianapolis Star.)

Physicians in Indianapolis and other cities will soon prepare to look for the typhoid-fever harvest, which begins soon after the people who have been spending their vacations away from home.

In spite of all that has been said concerning the importance of pure water and proper sanitary arrangements, very many persons are careless about such matters and when they go on summer wanderings simply "trust to luck" that all will be well and take few precautions to insure themselves against disease. Even where conditions are as they should be at any given resort or hotel, tourists wander about in rural places and drink water and milk about whose quality they know nothing and that are often contaminated.

Much more attention is paid to sanitation where people are accustomed to congregate, but the absence of general security makes vaccination against typhoid a desirable precaution for all who do much traveling, but especially for those who spend their summers at points where it is difficult to guard against risk. Typhoid vaccination has been given a sufficient test to prove its value as a preventive of disease. It has been compulsory in the army for two or three years and the fever has practically disappeared, whereas the percentage of cases was formerly high. No malady is more to be dreaded than typhoid and when immunity can be so easily secured it is folly to neglect to obtain it.

"DOCTORED" WAR REPORTS.

Fort Wayne, Ind., Aug. 12, 1914. Editor Sentinel. Dear Sir: A great

The Suffrage Movement And Womanly Beauty

The newspapers happily have proven by printing photographs of many suffrage leaders that they are up to the minute, both as to clothes and as to beauty, and we contend modern women are beautiful because they have learned to care for themselves and study beauty methods. Then, too, we have found an astonishing thing—namely that they have discarded face powder. The reason complexion suffers so much in summer is because powder does not offer sufficient protection against the hot sun. A plain spumax lotion not only safeguards the skin from the elements, but in itself is a beautifier of great worth. To prepare this lotion at home, dissolve 4 ounces spumax from druggist in 1/2 pint hot water (or witch hazel) and add 2 teaspoonfuls glycerine. This applied to the skin becomes invisible and imparts a velvety softness and dainty tint to a rough, faded skin, relieving that shiny, oily appearance, and its use will insure a lovely, clear complexion.

deal has been said by papers recently regarding their inability to obtain facts relative to the European war. People wishing to become informed on the war question cannot do so by reading these "doctored" reports which have passed through the hands of the censors of France and England. But there is a way to obtain the facts, although they will seem stale at the time of publication, they will be none the less authentic. A good many newspapers are publishing special articles, written by military experts, men whose business it is to become informed along these lines. As yet we have had nothing from these experts other than what would probably be the movements of the different armies, the necessity of the occupation of Liege by the Germans, etc. The real facts concerning the different battles will come later, and they will come from such a source that their truthfulness cannot be doubted.

People, especially students, are desirous of learning as much as possible about the conflict, and by following these special articles will, after the war is over, have amassed a great deal more real information and have a far better understanding of existing conditions in general than will be published in history for several years.

Yours very truly,
WILLIAM PRESTON.

The Possibilities of a Porch

To transform a porch into an airy outdoor living-room for the summer is very little trouble. You need only a few chairs, a table, and a porch light. The light—because evening is the time when the porch living-room is most appreciated.

EDISON MAZDA LAMPS

If you use EDISON MAZDA Lamps in your home, the porch light will cost you very little, for you know with EDISON MAZDA Lamps you can have three times as much light as you can with old style carbon lamps—and still use no more electricity.

Let us demonstrate the saving and convenience of these lamps to you.

There's a Reason Why Firmsett Eyeglasses Should Be Exclusively Worn

If your lenses or mounting does not properly conform to the contour of your face or not be in correct relation to your eyes, you will certainly become nervous and irritable. Should the lens not be large enough, you are constantly being annoyed by the reflected light from its edge. With the old fashion screw and hole you constantly have the metal sticking out into the field of the lens. All of these disagreeable features are eliminated with our **FIRMSETT EYEGLASSES MOUNTING**. No holes, no screws, nor loose wiggly lens, large and inconspicuous, but above all, comfortable.

SEA FIGHTING IS NEAR IN PACIFIC

San Francisco, Aug. 13.—According to the captain of the German cruiser Leipzig, now off this port, eight war vessels flying the flags of belligerent nations are on the Pacific coast each daily expecting conflict with one or more of its adversaries.

That he is optimistic concerning the outcome of engagements in which his command may be involved, may be shown by his remark to Baron von Schaak, acting consul for Germany, who visited the Leipzig yesterday accompanied by newspaper men.

"It would not take us long," he said, "I believe we could dispose of them at the rate of one a day."

The trip to the vessel was arranged by a San Francisco newspaper in the interests of two sailors aboard the Leipzig reported in urgent need of hospital attention. An endeavor to reach Mayor Ralph to invoke, by wireless the extra-courtesy of the port to land the sick men, proved fruitless but Captain James Hays of the pilot boat Adventure, informed the officers of the Leipzig of the approach of the sailing German consul aboard the launch, Alert.

The Leipzig steamed to a point a few miles distant from the Farallon islands, 37 miles off shore where the launch was encountered. Baron von Schaak and the newspaper men were received aboard the Leipzig by Capt.

Huan and arrangements were made for the landing of the sick sailors. Capt. Huan announced his intention of entering this port soon for coal and said his duties might keep him in this vicinity for some time.

He also said that he is in constant communication with the German cruiser Nürnberg, which is hovering outside the port. When asked whether he would seize American coal if being transported in British vessels, he answered, "I cannot do that."

After a consultation between Baron von Schaak and the officers of the cruiser a hasty return to land was made. One of the sick sailors who was suffering from appendicitis, was operated upon successfully at a hospital. The other, suffering from blood poisoning, is in no danger, it was said.

The British steamer Francisco, which arrived today from Hull, has two guns mounted on her deck aft. Captain Rintoul explained that fifty vessels of the British merchant service are to carry guns. Twenty-five vessels have already been equipped.

The German cruiser Leipzig, now off this port, is stripped for action, all deck work having been jettisoned. "We had many fine boats," Lieut. Stanke said to newspaper men who visited the vessel. "They included a beautiful steam launch and a motor launch, the

THE KAISER AT THE FRONT TO LEAD HIS TROOPS.

THE KAISER AMONG HIS SOLDIERS

Kaiser Wilhelm is reported prepared to assume supreme command of the German army that is trying to force the passage of Belgium and Luxemburg.

This means that the real test of the Allies is at hand.

The English, French and Belgian armies that have concentrated on Namur and the line extending from that point across to a point in Luxemburg, which is not revealed, will have to check the real German army, as the presence of the Kaiser means that the crack Prussian infantry, heretofore believed to have been held in reserve, will attempt to push south along the Meuse River.

Leipzig's pride. But we decided that nothing should be left to encumber us when we engaged the enemy. We took all our boats and towed them out from the ship. We then loaded our 'four inches.' It was splendid target practice. Every shot took effect and our boats disappeared."

Among the eight hostile craft which the officers of the Leipzig located they would sink one a day, the following were given: British cruiser Rainbow and sloops of war Algerine and Shearwater, both off the Mexican coast, French cruiser Monclan, last reported off the Mexican coast, and two unidentified cruisers of the Australian navy, which are believed to be sailing in the direction of San Francisco.

WILSON ASKS FOR RED CROSS FUNDS

Washington, Aug. 13.—President Wilson, in his capacity as head of the American Red Cross, today appealed to the American people to contribute money for the relief of sick and wounded soldiers of the warring European nations. The appeal was as follows:

"To the People of the United States:—The present wars in Europe are certain to impose upon the Red Cross of the nations engaged a burden which demands the sympathy and aid of the world."

"The American Red Cross is earnestly desirous of assisting its sister societies in their endeavors to alleviate distress

and suffering among the combatants, and, therefore, appeals for funds to be expended impartially for the relief of the sick and wounded soldiers of the nations at war."

"Contributions for this purpose may be sent to the American Red Cross, Washington, D. C., or to local treasurers of the society in other cities. I confidently hope that the humanity and liberality of the United States so often manifested in the past will cause them to respond promptly and generously to this appeal."

(Signed) "WOODROW WILSON,
President of American Red Cross."

etc., will be among the attractions that will draw a big attendance. J. H. Brigham will be the principal speaker on this occasion.

Frank E. Rock was a passenger to Fort Wayne Tuesday, called there by illness in the family of his daughter, Mrs. R. J. Thompson.

USING ROUGE NOT A MATTER OF MORALITY BUT OF TASTE, SAYS BEVERLY BAYNE.

IF YOUR LIPS ARE PALE, A LITTLE TINTED GREASE WILL HELP—NOT HURT THEM.

(By Idah McGlone Gibson.)

A glance along the well trod street of any of our larger cities gives one the impression that most of the girls of today are like that ancient Egyptian queen who declared it was most immodest to be seen in public without having one's face painted.

Never in the history of the world was painting the face of women so universally practiced as it is today.

Fashionable women of all ages practice this more or less beautifying process openly. They carry around little boxes of leather of silver which contain black, red and white pigments and they can be seen repairing the ravages that perspiration, smiles or tears have made in the restaurants, on the street car or in any other public place.

Indeed, yesterday I saw a pretty girl hold up traffic on a street in Chicago when she deliberately powdered her nose while looking into a diminutive mirror inside of her vanity bag.

This is, however, one extreme at the other end of which is the woman who proclaims proudly: "I never use powder or face cream."

She usually looks the part. These women always remind me of others who always affirm: "I always speak the truth—tell just what I think."

You can depend upon one of these women to disclose to you an ugly uncared for countenance and the other to impress you with a disagreeable biased mind.

The thing to remember in this world is that everything is for man's use—but he must know how to use it.

I never have seen a complexion yet that a dusting of powder did not improve—but one must not put it on with a trowel and dust it off with a feather.

One must also be very careful that the tint of powder one uses is the color of one's complexion.

I have a friend who always uses pow-

dered orris root on her face. She is very dark with coal black hair and eyes and plenty of color. The yellow brown of the orris root is precisely the tint of powder which brings out her complexion. White or pink would call attention to the dark tint of her skin.

"I take a box of the usual pink tint and a box of white and mix them for the tint I use when not working," said Beverly Bayne.

The white powder is too colorless and the pink is too rosy for my complexion.

You must remember that using rouge is not a matter of morality but a question of taste. Today, when almost any woman takes a "lip stick" and paints her lips at the dinner table with the same unconsciousness with which she uses the finger bowl one may give some advice without seeming to touch on a forbidden subject.

As with powder one must know how to use rouge if one would not look like a circus clown. Don't make your lips too scarlet, neither use the purple red that makes them look like the vampire.

If your lips are pale a little tinted grease will improve their looks and not hurt them.

Miss Bayne does not advise a girl under 25 to use rouge. By exercise and right living she can produce a natural color that will be sufficient.

Breakdown Caused by Coffee

"I am satisfied," says a prominent physician, "that coffee is responsible in a great degree for the premature breakdown of our active men and women."

"They suffer from caffeine poisoning."

"Of the truth of this, there is not the shadow of a doubt. Our common sense tells us that the daily swallowing of caffeine" (the alkaloid in tea and coffee), "powerfully affecting heart and brain—is followed by nervous depression, and finally by more or less disastrous results."

"I believe if people in general would use a harmless, nutritious drink like Postum as a beverage in place of tea and coffee, their physical and mental condition would be much improved."

Thousands, troubled with nervousness, biliousness, sleeplessness, headache and heart flutter, have done precisely what this physician advises—given up tea and coffee and adopted—

POSTUM

with happy results.

"There's a Reason"

Postum is a pure food-drink, made from wheat and a bit of molasses, containing the nutrition of the grain. No caffeine—no drugs—no harmful ingredient in Postum. A delicious, nourishing beverage.

Postum comes in two forms.

Regular Postum—must be boiled, 15c and 25c packages.

Instant Postum—soluble—made in the cup, instantly, 30c and 50c tins.

Grocers everywhere sell both kinds and the cost per cup is about the same.

STILL HOPE FOR WATERWAY BILL

May Be Passed During the Trust Measures Conferences.

Washington, Aug. 13.—Friends of the river and harbor appropriation bill, which has been temporarily side-tracked in the senate for anti-trust legislation, have agreed to make a superhuman effort to pass the bill at this session of congress, rather than leave it to the mercy of the short session, which convenes the first Monday in December. The supporters of the bill realize that it is going to be a herculean task to keep a quorum of either house in Washington after the anti-trust bills are out of the way, but they are going to try to pass the waterway bill while the conferees on the trust measures are being held, the senate having made a number of radical changes in these measures.

since they left the house. It is anticipated that these conferences will continue for at least two weeks, which the advocates of the river and harbor bill believe will give them ample time to put the bill through the senate, even if the majority has to resort to continuous sessions.

So serious is the situation, however, that the representatives in congress, whose districts are vitally interested in waterway improvements, have started a "back-fire" and in consequence senators are beginning to receive telegrams from chambers of commerce, boards of trade and other commercial bodies, to say nothing of prominent citizens in the communities affected calling for the passage of the bill. Even delegations are on their way to Washington from different parts of the country, seeking to hasten the legislation which is imperatively necessary to keep the work of river and harbor improvements moving.

President Wilson is seriously considering the advisability of issuing an executive order changing the name of Calobria Cut, Panama, to Gillard Cut, in honor of the late Lieut. Col. D. D. Gaillard, who had charge of the engineering work in digging the cut, admittedly the greatest single feat in connection with the construction of the Panama canal. It is stated there is precedent for such an order, and the corps of engineers of the United States army are heartily in favor of thus honoring a very distinguished colleague.

The congress now in session has been the "talkiest" congress in all history, according to an examination of the statistics as to the comparative volubility of the members of this and preceding congresses. The Congressional Record, up to this date, contains about 14,000 pages for the present session, which began the first Monday in December. The largest Record achieved in a single session prior to this time was in the regular session of the fifty-ninth congress. It met in December, 1889, and continued

to the first of the next October, 304 days. It filled a Record of 10,800 pages. It is generally thought that the present congress will last at least six or eight weeks longer, which will add just that much more to a Record that is already perfectly awful to contemplate.

There used to be a fine old tradition that a new senator "should be seen, but not heard," during the first congress, but that has been relegated to the scrap heap, for the new senator does as much, and sometimes more, talking than his older colleague, which necessarily adds largely to the size of the Record.

Senator LaFollette gave the Record this season a big boost, when he had inserted a mass of letters and other matter sent to the interstate commerce commission to influence its decision in the advanced rate case. That material filled 305 pages and captured the championship for putting the most matter into the Record at one time.

Shortly before it became known that Mrs. Wilson was dangerously ill it was

NOVEL MASSAGE CREAM.

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara and when this pure skin cream is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequalled, removing all irritations, and making the skin soft and velvety. Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only antiseptic massage cream, and pimples, eczema and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage creams and sold on a guarantee of "best you ever used or money back," yet the price is a trifle, only 25c for a liberal jar; larger size 50c.

ANNUAL BIBLE CONTEST NEXT

Important Feature on the
Winona Program for
Friday.

Winona Lake, Ind., Aug. 13.—This important feature of the work of the Bible school will be presented in the Auditorium Friday afternoon, August 14, at 2:30 o'clock. It will be in charge of Dr. Parley F. Zartmann, who is conducting the Bible school.

This event, like the annual spelling contest, always arouses a great deal of interest and enthusiasm, and large audiences witness the contest as the Bible students test their knowledge of the leading facts of scripture history.

Dr. Zartmann has prepared a long list of interesting and instructive questions and three competent judges will decide on the correctness of the answers. Three valuable prizes will be given to the winners of the contest. A cordial invitation is given to all to attend, and all Bible students, except ministers, are invited to take part in the contest.

James F. Stutesman's Lecture.
The afternoon audience at the auditorium enjoyed an unusual literary treat Tuesday, when Hon. James F. Stutesman, ex-United States minister to Bolivia, gave his lecture on this far off country. His presentation of the subject was comprehensive and accurate.

but at the same time it was made exceedingly attractive by the polished phrases and dignified eloquence of the speaker. Mr. Stutesman recited his own experiences and observations, and every sentence was illuminated with a personal magnetism which held his hearers in closest attention. There were no dull periods in the lecture and no one left the building before the end of the address. Mr. Stutesman's home is at Washington City, and he was brought to Winona to fill a vacancy on the Chautauqua program. No one who heard his lecture regretted that the vacancy which gave opportunity for his appearance had occurred.

Mrs. W. S. Ryan, of 3218 Hoagland avenue, has been removed from St. Joseph hospital, where she has been a patient for some time and is convalescing.

ATKINS OUT FOR HURLING HONORS

Won Two of the Three Victories on the Last Road Trip.

(Special to The Sentinel.)
Terre Haute, Ind., Aug. 12.—There is warfare in Harry Martin's Billiken pitching staff and it promises to be waged during the remainder of the season.
Civil warfare is generally a bad thing for a nation, also for a baseball team, but in this instance it probably will help.
When James E. Wetzel was unaccountably defeated by a score of 3 to 2 in the ninth frame of a game in which he had demonstrated the fact that Claude H. Vaneil made a wise selection when he picked him from the disbanded Reapers, notes were compared and it was found that Atkins is about leading the pitching division of the Fort Wayne club.
Bill Cramer has been out in front most of the route this season but his record has been badly shattered in the last few weeks by losses and, in absence of official records, members of the team believe that the two mound specialists are about hooked up in the race.
Team members are taking no part in the fight other than they are bound to expect to give each of the men good support until the close of the season and watch a race between a southpaw and a right-hander to see which will hang up the greater number of victories for the year.

Both men are going along at a good clip and neither is allowing many hits, and the break in luck will govern the outcome of this little bit of warfare.
Cramer on Jack Vann. This backstopper person opened up a wider gap between Fort Wayne and third place in the Central league race in the Wednesday combat when he plunked the ball for a two-run homer after a couple of men had gotten on the path.
His hit was one of four off Wetzel but luck was against him and two safeties were mingled with an error in the closing half of the final round of play. Tommy Sheehan started the game on a hot streak when he annexed a double as a starter for the ninth.
Tom Cantwell was called to hunt for Andy Kyle and he delivered a nice grounder that would easily have advanced the runner in any event but Frankie Nespo ran in to cover first for the throw and snuffed the ball. This left two on and none down.
Vann's double did the rest. Fred Streeter opened the inning with a grand slam and after McLafferty had been passed Holderman forced Streeter at third but Strutchell cut in with a hit and scored McLafferty. McLafferty scored the third run for the evening. He hit for a base and was advanced to second by Holderman's sacrifice and took third when Strutchell was called at first.
Keele hit and McLafferty scored the plate. In the third inning boys knotted the count on Davis' triple and Anderson's single and then Wetzel easily held them safe until the blow-off in the ninth.

GENERAL ORDINANCE NO. 663.

An ordinance amending section 1 of General Ordinance No. 132, being an ordinance entitled "An Ordinance prohibiting throwing trash, refuse, ashes, and coal-ashes from being propelled over and along certain streets of the city of Port Wayne and providing penalties for the same."

Section 1. Be it ordained by the common council of the city of Port Wayne that section 1 of General Ordinance No. 132, being an ordinance entitled "An Ordinance prohibiting throwing trash, refuse, ashes, and coal-ashes from being propelled over and along certain streets of the city of Port Wayne and providing penalties for the same," be amended to read as follows:

MILLIONAIRE BAND OF MIZPAH TEMPLE TO PLAY AT SHRINER'S PICNIC

The title of "Millionaire" applied to the famous band of Mizpah temple, A. A. O. N. M. S. is not meant to convey the idea that each member is a millionaire, but that the aggregate wealth of its members, according to reliable statistics, is more than \$1,000,000. The musicians in the Shrine band play be-

cause they love music and because they are enthusiastic Masons and Shriners. Nearly every instrument known for band music is used by the Mizpah band. This band has the distinction of being made up almost exclusively of professional and business men. Two or three, however, are also professional musicians. In its membership are sev-

eral capitalists and some two or three bank directors. The capitalist may play the bass horn and the banker may hammer the bass drum. The band is under the leadership of Prof. J. L. Verwiere, the noted cornetist, and rehearsals are held at the Shrine temple each Wednesday evening. Every winter the band gives concerts on Sun-

day afternoon at the Scottish Rite cathedral, and the large audience testify to the popularity of the band among the Scottish Rite Masons and their families. During the coming winter the band will give concerts in the Shrine temple for the entertainment of the families of the Nobles. They have also filled several engage-

ments out of the city, among other places being entertainments given by the Masons of Garrett, Kendallville, Knox, Columbia City and Grand Rapids, Mich. In addition to furnishing the music for the picnic of the Shriners at Robison park tomorrow, the band will go to Knox on the 29th instant and will also

fill an important engagement for the Knights Templar at Lima, Ohio, during October. They never play for money, but give up their time for the musical education they receive and to advance the interests of Masonry and of Shrinism. Much of the past success of the band was due to the untiring efforts of the

late Dr. R. Parks White, who was an indefatigable worker in its cause. Playing with the Shrine band was one of his greatest enjoyments and although in poor health, he persisted in accompanying it to the imperial council meeting at Los Angeles, where the band achieved new honors.

tion 1. Be it ordained by the common council of the city of Fort Wayne that it shall be unlawful for any person, firm, company or corporation to propel or move, or cause to be propelled or moved over and along any street or alley within the limits of said city, any traction or other engine or boiler under the tires of the wheels thereon are smooth. Provided, that this ordinance shall not be construed to prevent the use of steam rollers or other apparatus employed by the city of Fort Wayne in connection with any department of public service.

GENERAL ORDINANCE NO. 685.

An ordinance regulating peddlers, vendors and hawkers and requiring the use of them of scales on vehicles used for the sale of any commodity, and providing penalties for its violation. Section 1. Be it ordained by the common council of the city of Fort Wayne, that all peddlers, vendors and hawkers peddling, vending or hawking goods, wares, provisions or merchandise over and upon the streets of said city, shall have at all times on the end of the vehicle from which such goods, wares, provisions or merchandise are sold, a circular spring balance scale of not less capacity than thirty (30) pounds by one (1) ounce and equipped with a galvanized iron scoop open at one end, which shall scale and bear the seal of the city inspector of weights and measures.

Section 2. That all peddlers, vendors or hawkers selling any goods, wares, provisions or merchandise upon the streets of said city shall scale by weight, when ever demanded by any purchaser, all commodities peddled or hawked by them, excepting goods and commodities customarily sold by numerical count. Section 3. That any person, company or corporation violating or failing to comply with any of the provisions hereof, shall be fined not less than five dollars (\$5.00) nor more than twenty-five dollars (\$25.00), and on any second or subsequent conviction for the violation or failure to comply with any of the provisions hereof, the license of such peddler, vendor or hawker shall be by the mayor of said city revoked.

Section 4. That this ordinance be in full force and take effect on and after its passage, approval by the mayor and legal publication.

C. O. LEPPER.

GENERAL ORDINANCE NO. 686.

Whereas, Henry W. Becker was appointed on June 21, 1909, by the then board of public works of the city of Fort Wayne as clerk in the Fort Wayne municipal electric light and power department at a salary of sixteen dollars sixty-six and two-thirds cents (\$16.66 2-3) per month, with the understanding that the work to be performed by him was to be in addition to the work performed by him as clerk to said board of public works; and

Whereas, the said Henry W. Becker in addition to his usual heavy duties as clerk to said board did from the 21st day of June, 1909, to the first day of January, 1914, act as clerk to said light and power department and did perform services that were reasonably worth sixteen dollars sixty-six and two-thirds cents (\$16.66 2-3) per month; and

Whereas, through some misunderstanding the said salary for said services from time to time was not paid and said services were accepted and the said employment ratified by the different boards before set out, which salary now due said Becker amounts to nine hundred dollars (\$900.00); and

Whereas, the present board of public works of said city, recognizing the fact that the salary so fixed by the board of public works on June 21, 1909, should have been paid to the said Henry W. Becker from time to time, did on the day of July 1914, adopt a resolution which is set out in the minutes of its said meeting, wherein it was resolved that the said salary so fixed was fair and just and that the said sum of nine hundred dollars (\$900.00) should be paid to the said Henry W. Becker when and after the same was approved by an ordinance of the common council, now therefore.

Section 1. Be it ordained by the common council of the city of Fort Wayne, that the board of public works of said city operating the municipal electric light and power works be and they are hereby empowered and authorized to pay to said

Do Modern Dances Make Wrinkles?

It is strictly a newspaper notion that because the dances of the day are strenuous they develop signs of age. Worry and carelessness may make wrinkles, but the activity of clean dancing never! Wrinkles are due more to improper care of the skin, neglect and too strenuous mental activity. They may be avoided or cured by using a simple protective and stimulative vegetable cream jelly before retiring. Just get one ounce of almondin from your druggist—dissolve it in 1/2 pint of water and, before retiring, cover the wrinkled surface with this cream, which dries quickly and both protects against the night air and draws the skin smooth, will not grow hair and immediately forces the blood to build out the flesh so wrinkles disappear.

ONION DAY AT WOLF LAKE.

Annual Harvest Carnival at the Center of Production.

Wolf Lake, Ind., Aug. 12.—Onion day, the annual harvest jubilee in this place, the center of the Northern Indiana onion belt, was inaugurated this morning and will continue tomorrow. Several thousand people drove into Wolf Lake today to join the celebration and enjoy the festival. A brass band started events officially at 7 o'clock this morning. People began coming early and the line quality of the weather and the merits of the program drew an immense crowd from the country for miles around. An address by Avery M. Groves, a Fort Wayne journalist, was delivered during the morning, his subject being "The Professional Farmer." A program of athletics, scheduled for the afternoon, attracted much attention. Base ball games and horse races featured the sporting events. Charles R. Lane, of Fort Wayne, republican candidate for congress in the Twelfth district, will speak tomorrow morning, his meeting being the official opening of his campaign. In the evening H. M. Widney, of DeKalb county, progressive candidate for congress, will speak. Another speaker on the program is Judge L. H. Wrigley, of Albion, incumbent of the Noble-Whitley circuit bench.

GIRLS' DAY

The following rhyme from a little Fort Wayne miss has been received by Manager Williams. She signs herself "Helen." She is especially invited to the Girls' White Dress Parade and to march with the Honor Guard, so that she may receive one of the white parasols as a souvenir. Out to beautiful Robison Park! Oh, say! Will you go with me? Where the little squirrels peep As they gaily leap high in the hickory tree.

Closed by the grand pavilion, Hundreds of girls, you'll see! Girls dressed in white, their hearts in delight, For their day it has come to be.

The queen's carriage in spotless hue, The horses snow white too, We're waiting to see who the queen will be, While each one asks: "Is it me?"

Boys' day is all right, But it can't compare with the girls in white! Even the man ahead of the band, One of the best in all the land.

Little girls, big girls! Fat girls, lean girls! Girls short, girls tall! Each one wishes to be Queen of all.

RUSSIANS REPORT GERMAN REPULSE

St. Petersburg, Via London, Aug. 13.—The following official communication has been issued:

August 10 and 11 the enemy made careful reconnaissance on the frontiers of the governments of Kovno and Suwalki. A German detachment of four battalions, three squadrons of cavalry and eighteen cannon attacked Eydkuhnen, east Prussia, but was repulsed. The communication gives details of a number of small frontier affairs. It is stated that Grand Duke Nicholas Michailovitch soon will join the active army and it is believed most of the male members of the imperial family will follow his example. The Grand Duke Constantine has endowed a field hospital with fifty beds. The Grand Duchesses Marie and Helen have volunteered as hospital nurses.

GERMANS TAKE AMERICANS IN

Berlin, Via Copenhagen and London, Aug. 13.—A meeting of 300 Americans in the German capital was informed last evening that many German families were ready to take stranded Americans into their houses without cost.

The first on the list of those willing to do so was Adolf Wormuth, the lord mayor, who declared he would take three Americans. The banks here also are ready to grant important credits to Americans. The president of the German bank declared that he would grant \$1,250,000 against adequate security.

ONE KILLED; ONE INJURED.

Miss Zella March Dies in Auto Accident Near Lafayette.

Lafayette, Ind., Aug. 12.—Miss Zella March, 21, was instantly killed and Miss Alberta Sherman was seriously injured last night in an automobile accident a few miles north of this city. There were seven persons in the automobile and all were injured. The machine, owned and driven by John Sample, cashier of the First National bank, went down a forty foot embankment. The girl who was killed was pinned under the machine.

COMPLEXION RUINED BY PIMPLES

Itched and Burned Badly. Also Had Blackheads. Used Cuticura Soap and Ointment. In Two Weeks Completely Well.

724 E. N. Ave., Olney, Ill.—"When my trouble first began I noticed little pimples coming on my face. They itched and burned so badly that I had to scratch them and that only made them worse. About a week later my face was so badly covered with pimples and blackheads that I was ashamed. My complexion was ruined. The pimples would sometimes bleed and fester."

"I bought a box of Cuticura cream and used it but without effect. I also bought some and complexion cream but with the same poor result. One day I heard of Cuticura Soap and Ointment and I decided to give them a trial. So I got a cake of Cuticura Soap and a box of Cuticura Ointment, washed my face with the Soap and applied the Ointment and in two weeks I was completely well." (Signed) Chas. E. McGinn, May 5, 1914.

NEWS OF FORT WAYNE'S NEIGHBORS

STREAM HAS GONE DRY.

Churubusco, Ind., Aug. 13.—In his semi-weekly journal, the Busco Paper, W. A. Cook has the following to say about canal matters: "Not a wet and dry election, but a stream has gone dry. The small creek known as Blue Babe creek that goes a mile and a half north of Columbia City, which is on the Harris Columbia City route of the proposed canal, is as dry as a whistle. The editor of this paper was across this stream last week and found that it did not contain a teaspoonful of water. It is clear evidence that it is no place for the great waterway that is to be built. It would be folly to go ten miles out of the way to go through this little wet weather stream, when to go through the Churubusco route it will have an abundance of water the year round, that is already built in the shape of ever flowing lakes. A branch canal can easily be built through the Blue river valley to Columbia City from the Churubusco route."

WOMAN WANTED TO DROWN.

Huntington, Ind., Aug. 13.—Mrs. Sarah Shively was prevented from drowning herself in the Ferguson quarry by Samuel Fahl, who held her while a telephone call was sent to the police station. Mrs. Shively had declared her intention of throwing herself in the quarry to Mr. Fahl. She told the police that she had come to Huntington to collect debts which she claims are owing to her. Unsuccessful in her mission she decided to end her life. Mrs. Shively is practically an exile from Huntington, having signed an agreement with Police Judge A. J. Rosebrough to live away from this city for a period of three years. She signed the contract after she had been arrested for operating an immoral house on condition that her jail sentence be suspended.

TOCISIN TO FIGHT TYPHOID.

Bluffton, Ind., Aug. 13.—The discovery of more typhoid fever cases at Tocsin and vicinity has caused the health authorities to take further steps in an effort to discover the origin of the typhoid germs, and a determined effort will be made to wipe out the disease. Samples of the water from various wells will be sent to the state chemist, and particular attention also will be given the Chicago & Erie railway water tower and yard, which were strongly under suspicion during a former epidemic. It is claimed that the pens have not been properly kept clean. A sample of water from the well at the stock pens will be analyzed. If the germs are traced to this source steps will again be undertaken to abolish the menace.

STAR WITNESS HAS FLED.

Hartford City, Ind., Aug. 13.—The case against Lew Lindermuth, John Price and William Patry, of Montpelier, charged with selling liquor to Homer West, a minor, have been dismissed in the court of Justice Croninger. Lindermuth was to have been tried Tuesday, Patry on Wednesday and Price on Thursday. The dismissal was moved by Prosecutor Sprague because of the absence of Bud Morris, the state's principal witness. Morris is reported to have disappeared from Montpelier and gone to Oklahoma.

KENDALLVILLE WOMAN DIES.

Kendallville, Ind., Aug. 13.—Mrs. Catherine Butterfield, aged 71 years, is dead at the home of her sister, Mrs. Mollie Carriger, death resulting from a complication of diseases. She had been an invalid for several years and had been bedfast since last March. She was born in Holmes county, Ohio, and came here from Toledo. Surviving are three daughters—Mrs. Ollie G. Smith, of Toledo; Mrs. Jennie Detling, of Elkhart; and Mrs. Maude Lorraine, of Fort Wayne. Also three sisters—Mrs. Carriger, Mrs. Emily Enos and Mrs. Lavinia Sturges, of Allegan county, Michigan.

KEPT MARRIAGE SECRET.

Elkhart, O., Aug. 13.—On May 2, Miss Marcelle Morkoetter and Richard McCormack, both of this city, were quietly married in Van Wert, and the secret has just leaked out. Mr. McCormack and Miss Morkoetter eluded their friends, went to the county seat town and were united in marriage and decided to keep the fact a secret. They are making their home with the bride's parents, Mr. and Mrs. John Morkoetter, on West Second street.

WOMEN HURT IN RUNAWAY.

Avilla, Ind., Aug. 13.—As Mrs. Chas. Brumbaugh and mother, Mrs. Ellen Fisher, were returning from the for-

mer's farm in Green township, their horse, which was a very nervous one, suddenly swerved to one side, upsetting the buggy, throwing the occupants to the ground and injuring them severely. Mrs. Fisher, who is a heavy woman, landed in the buggy top. She received severe bruises and a bad gash above the eye, while Mrs. Brumbaugh was severely bruised but no bones were broken as at first it was thought.

BOY BADLY KICKED BY HORSE.

Huntington, Ind., Aug. 13.—Glen Bosworth, 13-year-old son of John Bosworth, living on the John C. Moore farm, near Renner, was injured when a horse kicked him. The animal struck viciously with its hind feet, one striking the boy on the point of the chin and the other hitting him on the left side of his chest. His heart seemed to be affected for a time by the blow on the chest and he was made very sick.

TYPHOID SLAYS YOUTH.

Huntington, Ind., Aug. 13.—Sylvester Anthony Ehinger, 19 years old, is dead at the home of his parents, Mr. and Mrs. Frank Ehinger, in this city. Death followed an illness of three weeks of typhoid fever. He was employed at the Erie railroad shops as a machinist's apprentice, and had a wide acquaintance among the Erie employees and youths of Huntington.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; else cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

SAVES FATHER FROM JAIL.

Son Hires Parent Under Provisions of Wisconsin Parole Law.

La Crosse, Wis., Aug. 13.—Albert

Wickert, of La Crosse, hired his father, aged seventy-nine, from sheriff John A. Weber so the aged man would not have to go to jail for the first time in his life.

Andrew Wickert was charged with shooting a shotgun carelessly and in such a manner that shot entered the skin of Louis Bessecker, Judge Baldwin found him guilty and sentenced him to ten days.

The son furnished a cash bond and hired his father, under the parole law, to work on his farm. The county will collect the old man's wages from the son and turn a portion of the amount over to the father's family.

Saturday, Aug. 15th, all horse shoeing shops will be closed on account of Horse Shoers' National holiday.

MILLWRIGHTS REBUILDING STEEL STACK AT PENNSYLVANIA ROUND HOUSE WHICH WAS PROSTRATED BY WIND JULY 24.

The work of repairs on the boiler plant at the Pennsylvania round house, where a storm on July 24 blew down the stacks and did other damage, has been completed and the men who erected the mammoth steel stacks are now engaged in taking down the scaffold. The accompanying pictures, a reproduction of photographs taken Tuesday, shows the men who did the work standing at the base of the scaffold and as they appeared while at work near its top, placing the sections of the stack together. When this photograph was taken there remained only two of the five foot sections of pipe to complete the stack, which is 130 feet high. The picture of the stack and the scaffold also represents them as they appeared when the storm prostrated them. The big stack had been taken down and was being rebuilt. The heavy wind carried the scaffold over to the east, taking with it the stack which it surrounded, as well as the smaller stack just a few feet south of it. These stacks craved in the roof, demolished the breeching and the boiler fronts and did other damage. The total of which approximated \$1,000. The accident happened at 3:12 o'clock in the afternoon and early next morning two locomotive boilers were connected with the machinery and the work in the plant went on as usual. About a week ago the small, or No. 3 stack, was erected and the boiler which it serves was put in operation, releasing one of the locomotives, and today the other boilers, Nos. 1 and 2, were put in operation and the remaining locomotive sent to the shops to be fitted for road work.

The men engaged in the work at the round house power plant were four millwrights and two boiler-makers. The personnel of the party, as represented in the group picture taken at the base of the scaffold, is as follows, reading from the left to the right: H. W.

Woolman, C. F. Maitland, I. E. Koon, and A. W. Hurstmyer, millwrights; G. P. Dewart and R. L. Scherer, boiler-makers. The same men are represented in the picture showing the entire scaffold. Each has been in the employ of the company a number of years and

while the work just completed is probably the biggest job of the kind they have been called upon to do for some months, the work was not new and they took it up and pushed it along with a rapidity that came only after a thorough and long experience.

WOULDN'T ACCEPT RESIGNATION.

When Charles Romer sent in his resignation as pump-house man near Avery, O., assigning as a reason that the distance from his home to the pump was too great and that he could not secure a house nearer, the company promptly turned him down with the promise to provide a house near his work. At the pump station there was a bit of unused spur siding and on this the company set three box cars and fitted them up for living apartments. One was fitted for a kitchen, one a parlor and livingroom and the other for sleeping rooms. A strip of fertile ground adjacent to the siding was also donated as a garden patch. Mr. Romer has withdrawn his resignation and says he is satisfied with the accommodations provided by the company. Speaking of it he said: "Our bungalow is home to Mrs. Romer and I. We are alone here except for our dog, our parrot and our phonograph, but we are comfortable and happy and will stay as long as the officials of the road will let us."

PREPARING PRIZE LIST.

The prize committee for the field day of the Electro-Technic club is out this afternoon, calling upon business men and taking donations for the list of prizes for the event at Swiney park one week from next Saturday. There will be in the neighborhood of thirty prizes and most of them have already been donated. Among the list are three from the Fort Wayne Electric works—a large electric fan for domestic use, an electric iron and an electric toaster. The soliciting committee is composed of Joseph Schwartzkopf, G. E. Rogge and M. S. Willson. Following their report at the meeting of the executive committee tonight the list of events will be made up and ready for publication.

ON SHOP INSPECTING TRIP.

D. Frank Crawford, general motive power superintendent of the Pennsylvania, arrived here this morning and for three hours was engaged in inspecting the car shops and round house, making only a brief visit at the machine shop, Supt. T. W. Demaree, of the Northwest system, accompanied Mr. Crawford through the shops and also on his trip over the system, inspecting other shops and round houses. Mr. Crawford left at 10:30 o'clock this morning on the division special train for Crestline, accompanied by Supt. W. M. Wardrop, Trainmaster C. L. Hamilton and other division officials.

OPENS CAMPAIGN NEXT SUNDAY.

Sunday afternoon meetings at the Railroad Y. M. C. A. will be resumed next Sunday, after a lapse of three or four months. The meeting will be addressed by J. C. M. Baker, ticket reviewer of the Pennsylvania, who is greatly interested in Y. M. C. A. work. Clinton Willson and Howard Freeman will each sing solos and there will be other musical features. The arrangement for the musical program is in the hands of M. S. Willson, foreman of the testing room at the Electric works.

WILL RETURN TO OLD HOME.

A telegram from the Swiss consul in Chicago, received last night, summoned Max Flury, of the Pennsylvania shops, to Chicago for a conference. Mr. Flury is a first lieutenant in the Swiss army and he is to return there immediately to take up army service. He sails from New York Sunday morning. Mr. Flury came to America a year ago to study mechanical engineering and for awhile worked in the Canadian Pacific shops. He came to Fort Wayne eight months ago and has since been doing "special" work.

BUILDING TRADE IS REVIVING.

There are indications of a wholesome revival of the building trade in Fort Wayne. In fact it has already begun. Today the City Suburban company is having assembled the material for three houses. One is on Anthony boulevard and it will cost several thousand dollars. The Fort Wayne Home Builders' association also began getting material on the ground for two dwelling houses on South Webster street, which will be pushed rapidly along.

TRAINMASTERS HAVE MEETING

Pennsylvania Northwest System Men Hold Conference in Fort Wayne.

Committee work was the occasion yesterday for the gathering of the greatest number of Pennsylvania trainmasters ever held in Fort Wayne. At the meeting were Trainmaster E. J. Holahan, of Allegheny, Eastern division; Trainmaster C. B. Reynolds, of the Chicago Terminal division; Trainmaster J. J. Perry, of the Erie and Ashland division; Trainmaster C. L. Hamilton, Assistant Trainmaster E. M. Reese and General Yardmaster Henry L. Bley, of Fort Wayne, representing the Western division. The meeting was held in the office of Trainmaster C. L. Hamilton and it was in session nearly the entire day. The business considered pertained to the handling of trains and other matters coming under the trainmasters' official calling.

DANIEL DAVIS KILLED.

Was Inspecting Cars and Was Caught Between Bumpers.

The mangled remains of Daniel Davis were discovered in the Lake Shore yards

at 9 o'clock Wednesday night by C. O. Worton, the night yardmaster, who was running along the track to couple some cars at the time. Mr. Worton says that the night switch engine was going some work in the vicinity and did not know that Mr. Davis was in that part of the yards, as he was seen at the office a half hour before. Evidently he had gone up on No. 2 track and was between two cars for some purpose or other, when the engine backed a string of cars against them and Davis was crushed between the bumpers. Pieces of flesh and his overalls were found clinging to the bumpers of the cars and his cap was lying on one of them. Yardmaster Worton, Switchman J. E. Geary and J. W. Dalton and Engineer Davis of the switch engine, say that no signals were given to indicate that the car inspector was at work on No. 2 track and they supposed he was in another part of the yards.

The remains were examined by the coroner and then taken to the Bellini undertaking rooms to be prepared for burial. Arrangements for the funeral have not been completed. Daniel Davis was 28 years old and a son of Charles Davis, also a car inspector in the Lake Shore yards working in the daytime. The young man is a native of England and came to Fort Wayne about three years ago and soon afterwards took up car inspecting in the Lake Shore yards. Soon after finding steady employment here, he sent for his sweetheart and when she arrived they were married. A few weeks ago they moved into a house that was erected on a lot in the Pfeiffer addition for them.

ARE WANTED IN MARION.

Men Arrested For Train Climbing Are a Bad Couple.

The men arrested by Patrolman Lawhead, of the Pennsylvania, on the charge of train climbing and whose trials were continued until Saturday, are believed by Captain H. Stoll to be a very bad pair. They were sailing under false colors, but through some papers found on one of them it develops that their names are Pietro Demo and Cassilio Filippi, Italians. One of the papers was a receipt for a money order obtained at Marion, Ohio, calling for \$30 and which was sent to the wife of one of the men in Italy. Captain Stoll immediately telegraphed to Marion and this morning received the following: "Hold both Italians. Have warrant for them for shooting with intent to

kill. Let me know if they will come without requisition papers. Answer quick."

Signed, J. E. MCDONOUGH, Chief of Police.

When Capt. Stoll found on one of the prisoners a fine revolver of the standard Colt's pattern, he recalled the robbery in Chicago in which twenty-six of these revolvers were stolen and shipped by express to Cleveland. Captain Stoll thought the revolver carried by the prisoner might have been one of that lot and he wrote to the chief of police of Chicago, giving the number of the gun and a description, but he has not yet received a reply. These developments demonstrate the wisdom of holding over prisoners of this character until an investigation can be made.

MOTOR RIDER INJURED.

Sam Franze Struck on a Gary Street Crossing by Train.

Samuel Franze is in the hospital at Gary with a badly bruised head and a fractured arm. Yesterday he failed to heed the warning of an approaching engine, evidently believing he could beat it to the crossing, and he was struck as he was crossing the Pennsylvania tracks at Tolt street and his machine hurled aside. The train was extra No. 2044, with Engineer B. J. Crull at the throttle. Franze will recover and will probably know better than to take a similar chance with a train hereafter.

FOR FRECKLED, TANNED, RED OR WRINKLED SKIN.

Just beneath that freckled, tanned or reddened complexion there's an exquisitely beautiful skin of youthful tint and delicacy. If you could only bring this complexion to the surface, discarding the discolored one! You can—in the easiest, simplest, most natural manner imaginable. Just get at any drugstore a tin of Eucalypti. Apply nightly, like cold cream, removing the surface skin, causing no discomfort whatever. Eucalypti detects like pimples, blotches, liver spots, moth patches, freckles, of course disappear with the old skin. Nothing else will accomplish such wonderful results in so short a time. Fine lines and even deeper wrinkles disappear at this season. In such cases nothing is better than a face wash made by dissolving 1 oz. powdered Eucalypti in 1 pt. witch hazel. This is remarkably effective.

FUNERAL NOTICES.

Will—Funeral services for Elmer Weil will be held Friday afternoon at 2 o'clock from the residence, 721 West Wayne street, Rabbi Meyer Lovitch officiating. Interment will be made at Lindenwood cemetery. Local members of the Hai Rash fraternity are to act as escort from the residence to the cemetery.

Owing to the fact that the body of the young man was found lying in Whitely county, just across the Allen county line, after the automobile accident, Coroner E. H. Kruss has no jurisdiction to return a verdict and the inquest will be conducted by Coroner Strickler, of Whitely county.

Funeral services for Edward Davis, who met death in the Lake Shore railroad yards Wednesday night, will be held Saturday afternoon at 2 o'clock from the residence on Koch street, Rev. T. M. Hill will officiate and the interment will occur at Lindenwood.

The remains of Miss Mark, whose death occurred at Coldwater, Mich., will arrive in Fort Wayne Saturday morning and will be placed in the receiving vault at Lindenwood.

AMERICAN EGGS TO EUROPE.

Liner New York Will Carry 36,000 Dozens to London.

New York, Aug. 13.—In the refrigerators of the American line New York, when she sails for London tomorrow, will be 36,000 dozen eggs, the first American eggs for English markets since the beginning of the European war. These eggs cost here 25 cents a dozen. They were ordered by cable from London and there were calls for more but the steamer could not accommodate them.

With the supply of eggs from Russia shut off, England had no place to turn to secure stock except in America.

COMMITTEE MEETS HERE.

Transportation Heads of Electric Roads Hold Session.

A meeting of the transportation engineering committee of the American Electric Railway association was held Wednesday afternoon at the Anthony hotel and was attended by eight of the best known electric railway transportation authorities in the country. While the Fort Wayne & Northern Indiana line is not a member of the association, the meeting was held in Fort Wayne because of the central location of this city. The business of the meeting will not be made public until the committee reports at the annual convention of the association to be held in October at Atlantic City.

ROLLER CAUSED TROUBLE.

Fell into Trench and Blocked all of the North and South Car Lines.

A roller that was intended for use in the trench being dug for the west car track on North Calhoun street tumbled in while it was being hauled to a point where it would not interfere with traffic. It took the plunge at Wallace and Calhoun and blocked the south track. Street cars came up from the north and blocked the track so that East Freighton cars could not run and transportation was at a standstill for some time. For those who stamped their feet and said ugly things about street cars, this is the explanation.

LOUISIANA HAS ACCIDENT.

Port Propeller Shaft of American Warship is Broken.

Washington, Aug. 13.—The battleship Louisiana, en route to Guantanamo from Vera Cruz, has broken her port propeller shaft. The battleship Texas will convey her to the Norfolk navy yard, after which the Texas will go to New York. The battleships Virginia and New Jersey have been ordered to Guantanamo from Vera Cruz, will stand by waiting developments in the Dominican republic and Haiti.
